READ ENTIRE LABEL BEFORE USING THIS PRODUCT

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution: Causes eye irritation. Harmful if swallowed or inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Keep children and domestic animals off treated areas until this material has been washed into the soil. Avoid contamination of feed or food products.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. DO NOT apply directly to water. DO NOT contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL DIRECTIONS: To prepare spray solution, fill spray tank with recommended amount of water. Add WEED ENDER as recommended below and mix thoroughly by shaking or other agitation. If mixed spray is allowed to stand for any length of time, it should be shaken or agitated before using.

WEED ENDER	AMOUNT OF WATER	AREA COVERED
½ pint*	2 - 2½ gallons	562 sq. ft.
1 pint	4 - 5 gallons	1,125 sq. ft.
2 pints	8 - 10 gallons	2,250 sq. ft.

* Equivalent to 8 fluid ounces or 16 tablespoons.

Apply WEED ENDER to top-kill actively growing, undesirable annual and perennial weeds by thoroughly wetting foliage to runoff. However, certain hard-to-kill species, such as Bermudagrass and dallisgrass, may require repeat application. Should regrowth occur, retreat as needed at 5-day intervals. Sunshine and temperatures above 80°F will enhance effectiveness.

DO NOT allow spray to drift onto desirable plants. DO NOT use WEED ENDER on vegetable gardens. DO NOT track from treated areas onto lawn.

NON-PLANTED AREAS: WEED ENDER may be used for general weed control or as a liquid edger around buildings, storage areas, vacant lots, patios, walkways, driveways, curbs and fences.

For homeowner use on non-planted areas or as a liquid edger around patios, curbs, fences, walkways, driveways, trees and shrubs.

ACTIVE INGREDIENTS:

Sodium cacodylate 15.20%
Dimethylarsinic acid (Cacodylic acid) 2.62%

INERT INGREDIENTS: 82.18%
Total 100.00%

Total arsenic: 8.54%
(All in water soluble form, expressed as elemental)
Contains 1.51 pounds cacodylic acid equivalent per gallon.

EPA Reg. No. 17545-5

EPA Est. No. 48498-CA-1

KEEP OUT OF REACH OF CHILDREN CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists. **IF SWALLOWED:** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of Ipecac. If person is unconscious, DO NOT give anything by mouth and do not induce vomiting. **IF ON SKIN:** Wash with plenty of soap and water. Get medical attention if irritation persists. **IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

See side panel for additional precautionary statements.

Attention: This product contains cacodylic acid, which is a chemical known to the State of California to cause cancer.

NET CONTENTS: 1 QUART / 0.946 LITER

Manufactured for:
MONTEREY CHEMICAL COMPANY
P.O. Box 5317 • Fresno, CA 93755 • 209-499-2100

ORNAMENTALS: Apply WEED ENDER as a directed spray to unwanted vegetation around ornamental plants, shrubs and trees. Avoid spray contact with foliage, stems or bark of desirable plants.

LAWN ESTABLISHMENT AND RENOVATION: WEED ENDER may be used to destroy weeds before lawn establishment or weeds and existing turf before lawn renovation. For best results, mow weeds or lawn to about 1" height before treatment. Apply WEED ENDER according to the above table. If needed, repeat application as indicated above 5 days after first treatment.

Note: Delay reseedling for at least 5 days after last application. Dead vegetation need not be removed unless matted grass or thatch prevents lawn seed from making soil contact. Precede reseedling by heavily watering treated area. Seed may be worked into soil if necessary by scarifying or raking. A light top-dressing of screened peat moss will help retain moisture during seed germination. Keep reseeded area moist.

STORAGE AND DISPOSAL

STORAGE: DO NOT store near feed or food products. Store in original container in an area inaccessible to children.

DISPOSAL: DO NOT reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash. Clean sprayer with water and discard rinse water onto sprayed area.

CONDITIONS OF SALE AND WARRANTY

Monterey Chemical Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Monterey Chemical Company neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Monterey Chemical Company and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall Monterey Chemical Company or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Monterey Chemical Company and is accepted as such by the Buyer.
