UNDER THE FEDERAL INSECTICIDE
ACT, THIS PRODUCT IS REGISTERED
FOR USE AS AN ALGAE KILLER
UNDER NO. 17866-2

Industrial Maintenance Corporation

WATER TREATMENT SPECIALISTS

CHARLOTTE, NORTH CAROLINA

imcor

DIRECTIONS FOR USE

Begin treatment when the system is in jeopardy of becoming affected or after cleaning systems have failed to completely remove. Badly fouled systems must be cleaned before treatment is begun.

INITIAL DOSE: Apply 1/2 to 1 pound of this product per 1500 gallons of water in the system. Repeat treatment as required.

SUBSEQUENT DOSE: When microbial control is desired, add 1/2 to 1 pound of this product per 1500 gallons of water in the system every week or as required to maintain control. Apply the product at a point in the system where it will be adequately mixed.

In case of very heavy algae growths, care should be taken prior to adding A-101 to assure that organic growths are not allowed to enter the pump suction since some plugging could take place. Consult your IMCOR representative if in doubt.

This product is toxic to fish and wildlife. Keep out of lakes, ponds and streams. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not reuse container. Destroy properly when empty. Apply this product only as specified on this label.

EPA Reg. No. 17866-2

EPA Est. No. 17866-NC-1

A-101 ALGAEKILLER

COMPOSITION

A blend of Sodium Pentachlorophenates for the control of algae, bacteria, and/or fungi in commercial and industrial recirculating water systems.

Active Ingredients	90%
Sodium Penta-Chlorophenate	79%
Sodium Salts of other Chlorophenols	11%
Inert ingredients	10%

DANGER

KEEP OUT OF REACH OF CHILDREN

See side panel for First Aid and additional precautionary statements

SOLD BY

Industrial Maintenance Corporation
3520 Tryclan Drive
Charlotte, North Carolina 28210

Net Weight - 100 Pounds

DANGER

KEEP OUT OF REACH OF CHILDREN

CORROSIVE Causes eye and skin severe burns. Do not touch skin or on clothing. Protect when handling. Harmful or fatal if inhaled or absorbed through the mouth. Do not breathe dust.

FIRST AID: In case of eye contact, immediately with plenty of water for 15 minutes and get medical attention. In case of skin contact, wash with plenty of water. Wash container before reuse. If swallowed, do not induce vomiting. Call physician by sticking finger down the throat and ingesting an emetic such as 2 tsp. of salt in a glass of warm water.

NOTE TO PHYSICIAN: This is a metabolic stimulant. Cause of symptoms. Treat symptomatically.

DIRECTIONS FOR USE

Begin treatment when the system is in jeopardy of becoming affected or after cleaning systems which are badly fouled or repaired. Badly fouled systems must be cleaned before treatment is begun.

INITIAL DOSE: Apply 1/2 to 1 pound of this product per 100 gallons of water in the system. Flush the system thoroughly.

SUBSEQUENT DOSE: When the retinal control is evident, add 1/2 to 1 pound of this product per 1500 gallons of water in the system every week or as needed to maintain control. Apply the product at a point in the system where it will be uniformly mixed.

In case of very heavy algae growths, care should be taken prior to adding A-101 to assure that organic growths are not allowed to enter the pump suction since some plugging could take place. Consult your IMCOR representative if in doubt.

This product is toxic to fish and wildlife. Keep out of lakes, ponds and streams. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water.
