ECO-TOX S

UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTER. ED UNDER NO. 178 /

#### COMPOSITION

Active ingredients

Poly[oxyethylene (dimethyliminio) ethylene-

(dimethyliminio) ethylene dichloride] .... 20.0 percent

# CAUTION

## KEEP OUT OF THE REACH OF CHILDREN

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact flush with plenty of water for at least 15 minutes. If eye irritation persists get medical attention. Avoid contamination of food.

Rinse empty container thoroughly with water and discard container.

This product is toxic to fish. Treated effluent should not be discarded where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.

> MANUFACTURED BY ECO-CHEM, INC. P.O. Box 51476 New Orleans, Louisiana 70151

> > EPA Reg. No. 17870-1

#### APPLICATIONS

ECO-TOX S is used to control the growth of

For maximum effectiveness, pools containing heav be cleaned prior to using ECO-TOX S.

For pools having just visible algae growth ad 57 fl. oz. of ECO-TOX S per 10,000 gal. of water debris by cleaning.

For treatment of a freshly cleaned and filled p fl. oz. of ECO-TOX S per 10,000 gal. of water.

To maintain pools free of visible algae growth 14 fl. oz. of ECO-TOX S per 10,000 gal. of water to 7 days after the initial treatment.

Uniform distribution of ECO-TOX S through is necessary for maximum effectiveness.

**ECO-TOX S** is compatible with those chemical pools and is effective at both acid and alkaline pH in pools treated with chlorine chemicals and md those chemicals normally required. However, do concentrated dry or liquid chlorine products.

ans, Louisiana 70151

Reg. No. 17870-1

## **APPLICATIONS**

**ECO-TOX S** is used to control the growth of algae in swimming pools.

For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using **ECO-TOX S**.

For pools having just visible algae growth add an initial dose of 37 to 57 fl. oz. of **ECO-TOX S** per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 20 to 37 fl. oz. of **ECO-TOX S** per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 14 fl. oz. of **ECO-TOX S** per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of **ECO-TOX S** throughout the water in the pool is necessary for maximum effectiveness.

**ECO-TOX S** is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. **ECO-TOX S** can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix **ECO-TOX S** with concentrated dry or liquid chlorine products.
