BOATERS CHOICE Algae & Bottom Cleaner easily removes algae, scum and waterline stains from fiberglass and painted boat bottoms. The concentrated cleaner makes double the bottle contents when mixed with water. It is fast acting and works without hard scrubbing.

WEAR RUBBER GLOVES

Directions: Mix the Cleaner with an equal volume of water in a plastic pail. Apply with a paint roller using an extension handle. Allow the Cleaner to work for 10 minutes and then re-apply a second coat. After the second coat has worked for 10 minutes rinse off with water. For extremely dirty areas the Cleaner may be used full strength. Best results are obtained when the temperature is 70 degrees F or above.

Caution: Cleaner should be tested on an inconspicuous area before use to be certain it will not harm finish.

DANGER  POISON-ACID

Contains Hydrochloric Acid. Causes severe burns on contact and fumes are corrosive. Use in a well ventilated area and wear rubber gloves and protective clothing. Avoid contact with skin, eyes, mucous membranes and clothing. Do not take internally. Harmful or fatal if swallowed.

FIRST AID

- EYES - Flush eyes immediately with water at least 20 minutes.
- EXTERNAL - Flood with water for at least 15 minutes, then wash with magnesia or baking soda.
- INTERNAL - Drink large quantities of water or milk. Follow with milk of magnesia, chalk, beaten eggs or vegetable oil.
