This product weighs 7.0 pounds per gallon.

## KEEP OUT OF REACH OF CHILDREN WARNING

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed or absorbed through skin. Avoid breathing vapors or mist. This product may cause skin sensitization.

**STATEMENT OF PRACTICAL TREATMENT:** *In case of skin contact, wash promptly and thoroughly with soap and water. If product gets in eyes, flush immediately with copious amounts of clean, cool water for 15 to 20 minutes. Get medical attention immediately. If product is swallowed, call a physician or Poison Control Center. Drink a large quantity of milk, egg whites, or gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol.*

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulator, shock, respiratory depression, and convulsion may be needed.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not use or store near heat or open flame.

Manufactured by: Bruning Paint Company  
Baltimore, Md 21224 Pompano, Fl 33069

EPA Est No 17876-MD-1

EPA REG. NO. \_\_\_\_\_

NET CONTENTS 1 Gallon(3.785 liters)

ULTRA-LIFE II is a clear, water soluble product designed to protect wood against decay, staining, and mold. In addition ULTRA-LIFE II has been formulated to penetrate into wood and repel water which causes shrinking and increase dimensional stability of wood elements.

Examples of typical uses include wood siding, patios and decks, and fences. ULTRA-LIFE II can be used by spray, immersion, or vacuum impregnation.

When applying ULTRA-LIFE II by brush or spray, do not call for subsequent finishing with a paint. The first two coats of ULTRA-LIFE II are recommended for optimum protection.

When applying ULTRA-LIFE II by immersion, a second coat is recommended. For certain applications a third coat is recommended for adequate protection.

Since ULTRA-LIFE II penetrates into wood and forms a true film, it will not crack, blister, or peel. It will cause gradual natural erosion and will not prevent it. Reapplication is recommended each 2 to 3 years for best results.

### STORAGE AND DISPOSAL

**STORAGE:** Keep container closed when not in use. Damaged or leaking containers should be placed in a plastic bag. All pesticides should be kept out of reach of children.

**DISPOSAL:** Do not reuse empty can. Wrap can in plastic.
