NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The Confidential Statement of Formula (CSF), dated March 21, 1995, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. A copy of the CSF has been placed in our file for the subject product. All previous versions are obsolete.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4(g)(2)(C) of FIFRA. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the revisions specified below before you print the final labeling for this product.

1. Align "Active Ingredient" to the same left margin as "Inert Ingredients."
2. On Front Panel, change "See Left Panel" to "See Right Panel".

Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

Registrants may sell or distribute products bearing old labeling for **one year** after the date of this Notice. **Non-registrants** may sell or distribute products bearing old labeling for **three years** after the date of this Notice.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

DEAN'S MEAT BASE Rat and Mouse Bait

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets, or other non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label

USE RESTRICTIONS — For control of Norway rats, roof rats, and house mice in and around homes, industrial buildings, and similar man-made structures. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait.

SELECTION OF TREATMENT AREAS — Determine areas where rats or mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove as much alternative food as possible.

APPLICATION DIRECTIONS

RATS: Apply 4 to 16 oz. of bait per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days.

MICE: Apply ¼ to ½ oz. (1-2 level tablespoons) of bait at 8- to 12-foot intervals. Larger placements (up to 2 oz.) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days.

JERRY DEAN EXTERMINATOR

307 EAST 8TH STREET • SPENCER, IOWA 51301

DEAN'S MEAT BASE Rat and Mouse Bait

Kills Norway Rats, Roof Rats
and House Mice.

PRECAUTIONARY STATEMENTS:**

EPA Reg. No. 17975-1

EPA Est. No. 17975-IA-01

NET CONTENTS: 3½ POUNDS
ACCEPTED
with COMMENTS
in EPA Letter Dated

MAY 9 1995

Under the authority of the Administrator
of the Environmental Protection Agency
this product is hereby registered for sale
and use in the State of Iowa

APPLICATION DIRECTIONS (Continued from left)

RATS/MICE: Replace contaminated bait immediately. Collect and dispose of all debris over bait properly. To prevent reinfestation of rodent food, water, and harborage areas, if reinfestation does occur, repeat treatment. If continuous source of infestation is present, bait stations and replenish as necessary.
(For Household Products)

STORAGE & DISPOSAL

STORAGE: Store only in original container, inaccessible to children and pets.
DISPOSAL: Do not reuse empty container. Place in newspaper and discard in trash.

(For Non-Household Products)

STORAGE & DISPOSAL

Do not contaminate water, food or feed with disposal.
STORAGE: General precautions concerning storage, storage in original container, and contamination of other pesticides, if applicable.
PESTICIDE DISPOSAL: Pesticide waste is a violation of Federal Law. Do not use according to directions, contact your State Pesticide Control Agency, or the Hazardous Waste Management and Emergency Response Division of the nearest EPA Regional Office for disposal.
CONTAINER DISPOSAL: Paper and plastic containers: Completely empty bag into application area. Dispose of empty bag in a sanitary land fill, or, if allowed by State and local regulations, if burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS & DOMESTIC ANIMALS:

CAUTION: Keep away from humans and pets. If swallowed, this material may cause bleeding of the blood and cause blood clotting.

NOTE TO PHYSICIAN: If ingested, do not administer Warfarin or Coumatetralil intramuscularly or orally, as they may cause coumatetralil overdoses. Repeat as necessary. Monitor prothrombin times.

ENVIRONMENTAL HAZARD

This product is toxic to mammals and birds. Do not apply to water, swamps, bog
