ALGAECIDE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Polygard Algaecide is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using **Polygard Algaecide**.

For pools having just visible algae growth add an initial dose of 50 to 77 fluid ounces of **Polygard Algaecide** per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 27 to 50 fluid ounces of **Polygard Algaecide** per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 9 to 18 fluid ounces of **Polygard Algaecide** per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.

Polygard Algaecide is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. **Polygard Algaecide** can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However do not mix **Polygard Algaecide** with concentrated dry or liquid chlorine products.

Active ingredient:
 Poly [oxyethylene (dimethyliminio) ethylene
 (dimethyliminio) ethylene dichloride] 15.0 percent
 Inert ingredient 85.0 percent
 This product contains 1.20 lb. of active ingredient per gallon and
 1.20 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

 Net Content: 1.13 Gallon

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND
 DOMESTIC ANIMALS**

CAUTION. Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

STORAGE AND DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse (or equivalent) and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Rinse that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
