

## DIRECTIONS FOR USE

Chemocide is a mildewcide, moldicide and fungicide for use in paint. Chemocide is soluble in organic solvents and is water dispersible.

The flash point is 150° F. minimum. Chemocide is for use in all paint. Use one to two fluid ounces per gallon of paint. This gives can preservation and mildew protection.

To insure best distribution, incorporate Chemocide as last vehicle during grinding operation.

Sold only to paint manufacturers.

CAUTION: KEEP OUT OF REACH OF CHILDREN

## CHEMOCIDE

U. S. D. A. Reg. No. 9810-1

## WARNING

KEEP OUT OF REACH OF CHILDREN

Manufactured by  
CHEMCOT INTERNATIONAL,
