USE.

A-200

PYRINATE® LIQUID

WARNING: Not to be used by persons allergic to Ragweed.
CAUTION: Keep Out of Reach of Children. Do not use near eyes or permit contact with mucous membranes. If product should get into eyes, immediately flush with plenty of clear water. Harmful if swallowed. Do not inhale.

DIRECTIONS: Apply sufficient liquid to completely "wet" the hair and scalp or skin of any infested area. Allow application to remain no longer than 10 minutes. Wash and rinse with plenty of warm water. Remove dead lice and eggs from hair with fine comb. To restore body and luster to hair following scalp applications, follow with a good shampoo. Use no more than 2 times in 24 hours.
CAUTION: In order to prevent reinfestation with lice, all clothing and bedding must be sterilized or treated concurrent with the application of this preparation. If skin irritation or signs of infection are present, consult a physician.

A-200
