ACCO ALGAECIDE 30 CONCENTRATE-L

ACTIVE INGREDIENT:
 Poly [oxyethylene (dimethylimio) ethylene-
 (dimethylimio) ethylene dichloride] 30%

INERT INGREDIENTS: 70%

The product contains 2.7 lbs. of active ingredient per gallon and weighs 8.9 lbs. per gallon.

**KEEP OUT OF REACH OF CHILDREN
 CAUTION**

STATEMENT OF PRACTICAL TREATMENT (FIRST AID):

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Get medical attention.

IF IN EYES: Flush with plenty of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

(See Side Panel for Additional Precautionary Statements)

CONTENTS: ONE QUART ONE GALLON

Algaecide Label

DIRECTIONS FOR USE:
 IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

STORAGE AND DISPOSAL:
 Keep container closed when not in use. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Rinse that cannot be used or reprocessed should be disposed of in an approved landfill.

PLASTIC CONTAINERS: Do not reuse empty containers. Triple rinse and incinerate or dispose of in an approved landfill.

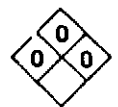

DIRECTIONS: ACCO Algaecide 30 Concentrate-L is used to control the growth of algae in swimming pools, exterior spas, whirlpools and hot tubs. For maximum effectiveness, pools, spas, whirlpools and hot tubs containing heavy growth of algae should be cleaned prior to using ACCO Algaecide 30. For pools having just visible algae growth, add an initial dose of 23.5 to 36.4 fluid ounces of ACCO Algaecide 30 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 12.8 to 23.5 fluid ounces of ACCO Algaecide 30 per 10,000 gallons of water. Subsequent additions of 4.3 to 8.6 fluid ounces of ACCO Algaecide 30 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance. Spas, whirlpools or hot tubs having just visible algae growth require an initial dose of 2 to 4 fluid ounces of ACCO Algaecide 30 per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool or hot tub, add initially 1 to 2 fluid ounces of ACCO Algaecide 30 per 1,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of ACCO Algaecide 30 should be made every 5 to 7 days after initial treatment for maintenance. ACCO Algaecide 30 is compatible with those chemicals normally used to treat pool and spas and is effective at both acid and alkaline pH. ACCO Algaecide 30 can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix ACCO Algaecide 30 with concentrated dry or liquid chlorine products.

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION:**

Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
