

FIRST AID

EXTERNAL — In case of skin and eye contact, flush with plenty of water. If skin irritation persists, get medical attention. For eyes, get prompt medical attention.

INTERNAL — Give milk, water or egg whites. Call Physician immediately.

CALL A PHYSICIAN. RINSE PRODUCT FROM SKIN. KEEP AWAY FROM CHILDREN.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Degrades with age. Use a test kit and increase dosage as necessary to obtain required level

ACTIVE INGREDIENT:

Sodium hypochlorite 12.5%

INERT INGREDIENTS: 87.5%

TOTAL 100.0%

WARNING

**KEEP OUT OF REACH OF CHILDREN
DO NOT GET ON SKIN OR IN EYES
HARMFUL IF SWALLOWED. STRONG OXIDANT.
MAY PRODUCE CHEMICAL BURNS.**

**SEE SIDE PANEL FOR
FIRST AID AND ADDITIONAL PRECAUTIONS.**

NET CONTENTS: 5 U.S. GALLON (640 FL. OZ.)

EPA Reg. No. 8936-2

EPA Est. No. 8936-WI-1

**Pool Power, a division of Baker's Food Products
718 W. Grange Ave., Milwaukee, Wis. 53221**

DIRECTIONS FOR USE

SWIMMING POOL DISINFECTION

— Begin with fresh water. Use 10 oz. of **POOL POWER SUPER SHOCK** for each 10,000 gallons of water. Mix required amount of **POOL POWER SUPER SHOCK** with about 20 parts of water and feed solution through a chlorinator, or dilute and scatter over surface of pool.

Check residual with a test kit and add more material in increments of 1 or 2 oz/10,000 gallons until a reading of 0.6 to 1.0 ppm is established. 1 oz/10,000 gallons will increase residual by 0.1 ppm.

Maintain PH at 7.2 to 7.6 at all times, as determined by a suitable test kit.

DISPOSAL

Rinse empty container thoroughly with water and discard or return it.
