Precautionary Statements

EPA Reg. No. 19713-40
EPA Est. No. 19713-MS 1

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Causes irritation of nose, throat and skin. Avoid contact with eyes, skin and clothing. Do not contaminate feed and food stuffs. Keep children and domestic animals off treated areas until this material has been washed into the soil.

Environmental Hazards

Keep out of any body of water. Do not contaminate water by cleaning equipment or disposal of waste.

DIRECTIONS FOR USE

For a violation of Federal law, use this product in a manner inconsistent with its labeling.

MSMA 4 Plus herbicide is useful for selective post-emergent weed control, particularly for grassy weeds. Its phytotoxic action is quickly activated in contact with soil. The combination of herbicide and surfactant in this product allows for easy application of the spray solution. Best results are obtained by spraying actively growing weeds at temperatures above 70°F.

MIXING INSTRUCTIONS

MSMA 4 Plus herbicide is a concentrate. It must be diluted before use. For most applications, mix 2 to 4 quarts of MSMA 4 Plus herbicide in 40 gallons of water. For spot treatments, mix 1 quart of MSMA 4 Plus herbicide in 10 gallons of water. For broadcast applications, mix 1 quart of MSMA 4 Plus herbicide in 10 gallons of water. For aerial applications, mix 1 quart of MSMA 4 Plus herbicide in 10 gallons of water. For ground applications, mix 1 quart of MSMA 4 Plus herbicide in 10 gallons of water.

NON-CROP USES

MSMA 4 Plus herbicide is useful for controlling weeds in non-crop areas. It is particularly effective on grassy weeds. It can be used on lawns, golf courses, and other areas where weeds are a problem. It can also be used on roadsides and other areas where weeds are a problem.

LAWN AND ORNAMENTAL TURF: MSMA 4 Plus herbicide is useful for controlling weeds in lawns and ornamental turf. It is particularly effective on grassy weeds. It can be used on lawns, golf courses, and other areas where weeds are a problem. It can also be used on roadsides and other areas where weeds are a problem.

Mow lawns 1 to 2 inches high before treatment. Mix 2 to 4 quarts of MSMA 4 Plus herbicide in 40 gallons of water and apply to an area of 1,000 sq. ft. Spray thoroughly to wet all undesirable plants. Repeat applications 10 to 14 days apart may be needed for good control.

To treat larger areas, such as athletic fields, golf courses, etc., parks, mow turf 1 to 2 inches high before treatment. Mix 2 to 4 quarts of MSMA 4 Plus herbicide in 40 gallons of water and apply to an area of 1 acre.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food or feed by storage, handling or disposal of equipment.

Pesticide Disposal: Pesticide spray mixture or solution that cannot be used or must be disposed of should be disposed of according to procedures approved by Federal, state or local authorities.

Container Disposal: Do not reuse or refill this container. Do not burn or incinerate this container. Do not dump or discard this container in any body of water.

Open dumping is prohibited.
