GENERAL INFORMATION

DREXAR 530 is useful for selective post-emergent weed control, particularly for Grassy weeds. Its phytotoxic properties are quickly inactivated on contact with soil. It is a combination of herbicide and surfactant. It is unnecessary to add any other surfactant to the spray solution. Best results are obtained on young, actively growing weeds at air temperatures above 70°F.

Not for use on plants being grown for sale or other commercial use or for commercial seed production or for research purposes.

For use on non-crop areas, ornamental gardens or parks, on golf courses or lawns and grounds.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Keep children and pets out of the treated area until sprays have dried.

MIXING INSTRUCTIONS: This product is completely water-soluble. Fill the spray equipment about half full with water and add the required amount of herbicide with agitation. Finish filling with water and apply. After use, clean equipment thoroughly by flushing with water. Do not store spray solution in tank for a prolonged period. Although this product is only moderately corrosive, do not use in galvanized or aluminum equipment.

NON-CROP: This product is useful for control of Johnsongrass, Nutsedge and certain other weeds on drainage ditchbanks, rights-of-way, fence rows, storage yards, highways, railroads, pipeline and utility, shelterbelts, airports, roadsides and associated rights-of-way, fence-lines, parking lots, transmission lines, tower bases, lumber yards, and industrial sites. If regrowth occurs, reapply as required.

LAWN AND ORNAMENTAL TURF: This product is useful for control of Bahiagrass, Chickweed, Crabgrass, Dallisgrass, Nutsedge, Sandbur and Woodsorrel with little or no injury to tolerant lawn grasses.
