Drexar Lawn Granules

Granular Insecticide

Controls Ants, Brown dog ticks, Chinch bugs, Crickets, Cutworms, Earwigs, Fleas, Sod webworms (Lawn moths), Sowbugs (Pillbugs) and certain White grubs and Hyperodes (Turfgrass) weevils infesting home lawns and other ornamental turf areas.

ACTIVE INGREDIENT:

 Chlorpyrifos (0,0-diethyl-0-[3,5,7-trichloro-2-pyridyl] phosphorothioate]
 0.5%

 OTHER INGREDIENTS:
 99.5%

 TOTAL:
 100.0%

CAUTION

See FIRST AID Below

EPA Reg. No. 19713-229 EPA Est. No. 19713-GA-1

Net Contents:

FIRST AID

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

IF IN EYES: Immediately flush eyes with plenty water, Get medical attention if irritation persists.

IF ON SKIN: Immediately flush skin with plenty of soap and water white removing contaminated clothing and shoes. If irritation develops, seek medical attention.

NOTE TO PHYSICIAN: Active ingredient is a chollnesterase inhibitor. Treat symptomatically. Atropine is an antidote.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. In case of contact immediately flush eyes or skin with plenty of water. Remove contaminated clothing and wash before reuse.

Do not apply this product in such a manner as to directly or through drift, expose workers or other persons. The area being treated must be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

This product is toxic to birds, fish and aquatic invertebrates. Birds feeding in treated areas may be killed. Clean up spilled product to reduce exposure to wifdlife. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Apply DREXAR LAWN GRANULES Granular Insecticide uniformly to home lawns and other ornamental and recreational turf grass areas using any hand or power operated gravity or rotary type spreader designed for application of granular materials. Treat when insects first appear using DREXAR LAWN GRANULES at the rate of 200 pounds per acre to help obtain uniform distribution, apply ½ the required amount of product in one direction, then apply the balance at a right angle. Immediately after application sprinkle the turf with 1,300 gallons of water per acre so as to wash granules into

the zone of insect infestation. Consult the following table to determine amounts of DREXAR LAWN GRANULES and water needed for smaller sized areas. Retreat as necessary.

Rates to Use				
Area to be Treated	Pounds of DREXAR LAWN GRANULES	Gallons of Water to Sprinkle on Turf After Treatment		
1,000 sq. ft. 5,000 sq. ft. 10,700 sq. ft.	5 25 50	30 150 325		

To Control Certain White Grubs (larvae of European chafer and Japanese beetle)—Use two (2) to four (4) times the amount of DREXAR LAWN GRAN-ULES shown in the table, i.e., 10 to 20 pounds per 1,000 square feet. Apply the granules uniformly over the area treated, followed immediately by thorough watering to wash the insecticide into the turf. For best results, treat when grubs are young and actively feeding near the soil surface usually during late July and August. Consult your Local Agricultural Extension Service Specialist for proper time to treat in your area.

To Control Hyperodes (turfgrass) weevils—Use twice the rate of DREXAR

To Control Hyperodes (turigrass) weevils—Use twice the rate of DREXAR LAWN GRANULES shown in the table. Treat suspected problem areas in mid-April and again in mid-May. Consult your local Agricultural Extension Service Specialist for best time to treat in your area.

For Control of Fleas and Brown Dog Ticks—Thoroughly apply DREXAR LAWN GRANULES as a spot treatment to infested areas such as: Pet Beds: Old bedding of pets should be removed or replaced with clean, fresh bedding after treatment of pet areas. Do not apply this product indoors. To control the source of your fly infestation, treat pets with an EPA approved product, registered for direct application to pets.

Yard Areas: Apply DREXAR LAWN GRANULES uniformly to home lawns, under shrubbery, and other ornamental recreational turf grass areas. Treat when insects first appear using granules at the rate of 1 pound per 200 square feet or 4 pounds per 800 square feet. To help obtain uniform distribution, apply ½ required amount of product in one direction, then apply the balance at a right angle. Immediately after application, sprinkle the turf with 40 gallons of water per 800 square feet so as to wash the granules into the zone of insect infestation. Retreat as necessary.

DO NOT TREAT PETS WITH THIS PRODUCT.

WARRANTY—CONDITION OF SALE

OUR RECOMMENDATIONS FOR USE of this product are based upon tests believed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith.

In no case shall the Manufacturer or the Seller be liable of consequential, special or indirect damages resulting from the use of handling of this product when such use and/or handling is not in strict accordance with directions given herewith. The foregoing is a condition of sale by the Seller and is accepted as such by the Briyer.
