Subject: Label Notification(s) for Pesticide Registration Notice 98-10 and 2007-4
1. Updated trademark ownership statement
2. Updated "Manufactured For" information

Dear Ms. Chan:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 and 2007-4 dated April 6, 2010 for:

EPA Registration 19713-368

Drexel Linuron Technical 2

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 98-10 and 2007-4 and finds that the label changes requested falls within the scope of PR Notice 98-10 and 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".
