Subject:

Label Amendment

EPA Reg. No.: 19713-579 (Pendiguard Turf Fertilizer)

The amended label is acceptable provided you make the following changes to the label:

- 1. You must keep "or rinseate" after "washwater" under the Environmental Hazards box.
- 2. Add "exists" after "washables" on page 1 of the label.
- 3. On page 2 and anywhere else in the label, change "recommended rate" to "rate".

Amended labeling will supercede all previous accepted ones. A stamped copy of labeling is enclosed for your records. Submit one (1) copy of final printed labeling before you release the product for shipment. If you have any questions please call Erik Kraft at 703-308-9358.

Sincerely,

James A. Tompkins

Product Manager 25

Herbicide Branch

Registration Division (7505P)

# endiguard Turf 0.6 Preemergent Weed Contro

## 0.66% Pendimethalin + XX-XX-XX Fertilizer

FOR USE ON TURFGRASSES, ORNAMENTAL PLANTINGS, AND GROUND COVERS AS LISTED.

### ACTIVE INGREDIENT:

Pendimethalin: N-(1-ethylpropyl)-3,4-dimethyl-2.6-dinitrobenzenamine..... 0.66% OTHER INGREDIENTS: ..... 99.34% TOTAL: ...... 100.00%

(50 pounds of this product contains 0.33 pound of the active ingredient, Pendimethalin)

#### XX-XX-XX

## **GUARANTEED ANALYSIS:**

Not More Than xx.xx%

## KEEP OUT OF REACH OF CHILDREN CAUTION

See FIRST AID Below

EPA Reg. No. 19713-579 EPA Est. No. 19713-

**Net Content:** 

## FIRST AID

## IF IN EYES:

- · Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- · Remove contact lenses, if present, after the first 5 minutes, then continue
- Call a poison control center or doctor for treatment advice.

## IF ON SKIN OR CLOTHING:

- · Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- · Call a poison control center or doctor for treatment advice.

## IF SWALLOWED:

- Call a poison control center or doctor immediately for treatment advice.
- · Have person sip a glass of water if able to swallow.
- . Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious or convulsing person.

#### IF INHALED:

- · Move person to fresh air.
- · If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- · Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

### PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION; Causes moderate eve irritation, Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling.

Personal Protective Equipment (PPE): Some materials that are chemicalresistant to this product are any waterproof material (refer to Category A on an EPA chemical-resistance selection chart).

Applicators and other handlers must wear: Long-sleeved shirt and long pants, chemical-resistant gloves made of any waterproof material such as polyethylene or polyvinyl chloride, shoes plus socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

## **USER SAFETY RECOMMENDATIONS**

Users should: 1) Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. 2) Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. 3) Remove PPE immediately after handling this product. Wash the outside gloves before removing. As soon as possible, wash thoroughly and change into clean cloth-

## **ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift or runoff from treated areas may be hazardous to aquatic organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwa-

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This labeling must be in possession of the applicator at the time of pesticide ap-

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Keep children and pets out of the treated area until dusts have settled. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Do not apply this product in greenhouses, shadehouses or other enclosed structures. Not for use in commercial seed production.

Do not apply this product through any type of irrigation system.

Manufactured By: **Drexel Chemical Company** 

P.O. BOX 13327, MEMPHIS, TN 38113-0327

SINCE:19,7'2'

## AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard (WPS), 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) and Restricted Entry Interval (REI). The requirements in this box only apply to uses of this product that are covered by the WPS.

Do not enter or allow worker entry into treated areas during the REI of 24 hours.

PPE required for early entry to treated areas that is permitted under the WPS and that involves contact with anything that has been treated, such as plants, soil or water is: Coveralls, chemical-resistant gloves made of any waterproof material, and shoes plus socks.

## NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to use of this product that are not within the scope of the WPS for agricultural pesticides (40 CFR part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not enter or allow others to enter the treated area until dusts have settled.

Failure to follow the directions for use and the precautions on this label may result in poor weed control, crop injury, or illegal residues.

#### **USE INFORMATION**

PENDIGUARD TURF 0.66% is a combination preemergent herbicide with fertilizer formulated to provide control of most annual grass weeds and certain broadleaf weeds found in Turfgrass grown in golf courses, lawns in residential, commercial establishments, or grounds around military or other institutions, sod farms, parks, airports, school or cemeteries, prairiegrass areas, athletic fields or recreational areas, roadsides, pipe yards, industrial, unimproved Turf areas, and other sites where Turf may be maintained. This product is labeled for use on the following Turfgrass species: Kentucky bluegrass, Perennial ryegrass, Fine fescue, Tall fescue, Bentgrass (except putting greens and tees), Poa annua (except putting greens and tees), Bermudagrass, St. Augustinegrass, Bahiagrass, Centipedegrass, Zoysiagrass, and blends of these grasses.

This product controls weeds as their seeds germinate, but will not control established weeds. Use a postemergent herbicide, such as 2,4-D or MSMA, to control established weeds. Consult all herbicide label directions for proper use and precautions.

Applied according to label directions and under normal growing conditions, this product will not cause Turf injury. Over application can result in Turf stand loss, Turf injury, or soil residues. Uneven application can decrease weed control or cause Turf injury.

Seedling diseases, cold weather, excessive moisture, high soil pH, soil salt concentration, or drought can weaken Turfgrass and increase the possibility of Turf damage from this product.

Unusually cold, excessively wet, or hot and dry conditions that delay germination or extend germination over a long period of time can reduce weed control. This product can be used around established Ornamentals and in established Wildflower plantings. This product may be used for hardwood and conifer regeneration on conservation reserve program land.

## APPLICATION

Apply this product uniformly at the recommended rate using a properly calibrated spreader (see table below for approximate settings). Avoid overlaps that will increase rates above those recommended. The efficacy of this product will be improved if the application is followed by one-half inch of rainfall or its equivalent in sprinkler irrigation. This will remove the product from the Turfgrass foliage and establish a preemergent herbicide barrier in the soil. If this product is not activated by rainfall or irrigation within 30 days of application, erratic weed control may result. Avoid contact of this product with porous surfaces such as driveways, stone, or wood. Removing particles will help prevent staining.

This product is recommended for preemergence control of the weeds species listed. Applications can be made around and over the top of the Ornamentals and to the sites listed on this label.

## **TURFGRASSES**

(Residential, Golf course, Commercial, Other Non-residential Turfgrass Uses) For Preemergence Weed Control

TURFGRASS SPECIES	WEEDS CONTROLLED	APPLICATION RATES*	COMMENTS
Cool Season Grasses Kentucky bluegrass Perennial ryegrass Fine fescue Tall fescue	Crabgrass Foxtail Poa annua Barnyardgrass Fall panicum Oxalis Prostrate spurge Purslane Knotweed Chickweed Evening primrose Hop clover	All Turf Uses: 227 to 303 pounds per acre as the ni- tial application prior to weed germination.	Apply a repeat application of 152 to 227 pounds per acre after 5 to 8 weeks for extended con- trol or where heavy weed infestations are expected.
	Goosegrass	Residential** and Sod Turf Uses Only: 227 to 303 pounds per acre in the Spring prior to weed germina- tion.	Apply a repeat application of 152 pounds per acre after 5 to 8 weeks if the lower rate was used initially or for extended Goosegrass control.

TURFGRASS SPECIES	WEEDS CONTROLLED	A CATION RATES*	COMMENTS
Cool Season Grasses (Cont.)	Goosegrass	Golf course, Commercial, Non-residen- tial Turf Uses Only: 227 to 455 pounds per acre in the Spring prior to weed germina- tion.	Apply a repeat application of 152 pounds per acre after 5 to 8 weeks if the lower rate was used initially or for extended Goosegrass control.
	Cudweed Poa annua Chickweed Lawn burweed Henbit Corn speedwell	All Turf Uses: 227 to 303 pounds per acre.	Apply in late Summer or early Fall prior to weed germination. Apply a repeat application of 227 to 303 pounds per acre after 5 to 8 weeks for extended Poa annua control.
Bentgrass or established <i>Poa</i> annua*** (one-half inch height or taller. Not for use on greens and tees.)	Crabgrass Foxtail Poa annua Barnyardgrass Fall panicum Oxalis Prostrate spurge Purslane Knotweed Chickweed Evening primrose Hop clover	Ali Turf Uses (Non-Greens and Tees): 227 pounds per acre in the Spring prior to weed germina- tion.	Apply a repeat application of 152 to 227 pounds per acre after 5 to 8 weeks where heavy weed in- festations are expected.
	Goosegrass	All Turf Uses (Non-Greens and Tees): 227 pounds per acre.	Apply in the Spring prior to weed germina- tion. Apply a repeat applica- tion of 227 pounds per acre after 5 to 8 weeks for ex- tended control.
	Cudweed Poa annua Chickweed Lawn burweed Henbit Corn speedwell	All Turf Uses (Non-Greens and Tees): 227 to 303 pounds per acre.	Apply in late Summer or early Fall prior to weed germi- nation.
Warm Season Grasses Bermudagrass St. Augustinegrass Bahiagrass Centipedegrass Zoysiagrass Tall fescue Buffalograss	Crabgrass Foxtail Poa annua Barnyardgrass Fall panicum Oxalis Prostrate spurge Purstane Knotweed Evening primrose Hop clover	Residential and Sod Farm Turf Uses Only: 227 to 303 pounds per acre prior to weed germination.  Golf course, Commercial and Other Non-Residential Turf Uses Only: 227 to 455 pounds per acre in the Spring prior to weed germina-	Apply a repeat application of 152 to 227 pounds per acre after 5 to 8 weeks if nec- essary.
	Goosegrass	weed germination.  All Turf Uses (Non-Greens and Tees): 227 pounds per acre prior to weed germination in the Spring. Apply a repeat application of 227 to 303 pounds per acre after 5 to 8 weeks.	An additional application of 227-pounds per acre may be applied for extended Goosegrass control 8 weeks after the second application.

TURFGRASS SPECIES	CONTROLLED	APPLICATION RATES*	COMMENTS
Warm Season Grasses (Cont.)	Cudweed Evening primrose Henbit Poa annua Chickweed Lawn burweed Corn speedwell	All Turf Uses: 227 to 303 pounds per acre.	Apply in late Summer or early Fall prior to weed germi- nation. Apply a repeat applica- tion of 227 to 303 pounds per acre after 5 to 8 weeks for extended Poa annua control.

 DO NOT exceed a maximum rate of 303 pounds per acre per application for use on Residential Turfgrass and Sod farm Turfgrass.
 DO NOT exceed a maximum rate of 455 pounds per acre per application for use on Golf course, Turfgrass, Commercial or other Non-residential Turfgrass.

Residential is defined as Turf in any residential situation as well as home lawns, schools, parks and playgrounds.
 Not for use on Bentgrass or Poe annue greens or tees.

#### **USE PRECAUTIONS**

- · Avoid application when wind conditions may cause drift.
- Use on well established Turfgrass with a dense and uniform stand. On newly
  planted areas, applications should not be made until the Turfgrass has filled
  in and has been mowed at least four times. On Turf that has been thinned
  or damaged due to Winter injury, excessive moisture, etc., allow for Turf
  recovery prior to making an application.
- Applications made to overseeded warm-season Turfgrasses may cause thinning or injury of the overseeded species.
- Do not use on Bentgrass or Poa annua greens and tees or injury may occur.
- Delay reseeding or Winter overseeding of treated Turfgrass for at least three
   (3) months following the last application of this product. Delay sprigging Turfgrass for five (5) months after application.

## INDUSTRIAL (UNIMPROVED) TURF

Industrial, or unimproved Turf areas often have a different spectrum of weeds to be controlled than those found in fine Turf as described elsewhere in this label. This product will control Annual grasses and Broadleaved weeds mentioned in that section of this label as well as the following weeds that might germinate in established grasses in rights-of-way, roadsides, construction sites, parks, substations, lots, or similar areas:

Crowfootgrass, Itchgrass, Johnsongrass (from seed), Junglerice, Lovegrass (from seed), Browntop Panicum, Texas Panicum, Field Sandbur, Signalgrass, Mexican Sprangletop, Red Sprangletop, Witchgrass, Woolly Cupgrass, Carpetweed, Fiddleneck, Filaree, Kochia, Lambsquarters, Figweed, Puncturevine, Florida Pusley, London Rocket, Shepherdspurse, Pennsylvania Smartweed, Annual Spurge, and Velvetleaf.

Apply before weeds germinate. A postemergence herbicide such as 2,4-D, MSMA, or similar product is recommended to control established weeds.

## LANDSCAPE AND GROUNDS MAINTENANCE

This product can be incorporated into landscape and ground maintenance programs to provide extended preemergence control of most annual grasses and certain broadleaved weeds. Areas to be treated include but are limited to established trees or Ornamentals in the landscape or in mulch beds; or, other commercially maintained landscape areas such as borders, around statuary or monuments in parks or in parking areas. If emerged weeds are present at time of application, either shallow cultivate to destroy existing weeds or, where practical, remove by hand, or apply a postemergence product labeled for such use prior to an application of this product. This product may be used before or after applications of herbicides registered for postemergence use (i.e., Glyphosate) for the control of established weeds. Do not apply sprays containing Glyphosate over the top of desirable plants, and follow the label restrictions. A treatment of this product may be followed by any registered herbicide to control weeds not listed on this product's label.

## ORNAMENTAL BULBS

This product may be applied for control of susceptible annual weeds in Ornamental bulbs listed on the label (Crocus, Daffodil (Narcissus), Gladiolus, Tulip, etc.). Apply this product prior to, during or after bulb emergence. If weeds have already germinated use a labeled postemergence herbicide to control emerged weeds.

#### WILDFLOWERS

This product herbicide may be applied for control of susceptible annual weeds in plantings of wildflowers listed on the label (Black-eyed Susan, California Poppy, Coreopsis, Oxeye Daisy, etc.). This product may be applied to established perennial wildflowers before emergence of weeds or wildflowers. For wildflowers being established from seed, apply this product after wildflowers have emerged but prior to weed germination. If weeds have already germinated, use a labeled postemergence product to control emerged weeds.

Due to the diversity of species and varieties which exist in areas where wildflowers are grown, the response to this product may vary greatly. Careful testing on desirable species is recommended to determine if area-wide applications can be made.

## **ORNAMENTAL PLANTINGS AND GROUND COVER**

**Use Precautions** 

Apply this product to established plantings. May be applied around and over the PENDIGUARD TURF 0.66% Page 3 of 6

top of established plants listed below. Care n.... oe taken that soil or planting mixes have settled firmly following transplanting and that there are no cracks that would allow direct contact of this product with roots. Applications where soil and media surfaces are uniformly covered will result in best weed control and Ornamental tolerance. Plant only those desirable plant species listed on this label into soil treated the previous season with any Pendimethalin containing product or injury may occur.

<ul> <li>After planting bedding plants and before applying this product, area to be treated should be watered sufficiently to pack soil around roots.</li> </ul>		

This product may be used on plant species not listed on this label. The suitability for such uses should be determined by treating a small number of such plants at the recommended rate. Treated plants should be evaluated for possible injury 1 to 2 months following treatment. THE USER ASSUMES RESPONSIBILITY FOR ANY CROP DAMAGE OR OTHER LIABILITY. Do not treat plants grown for food or feed. Do not use treated plants for food or feed.

## STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage and disposal. Open dumping is prohibited. Do not reuse empty containers. PESTICIDE STORAGE: Store in a clean, dry place. Reseal opened bag by

folding top down and securing. Do not store above 120°F.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

## WARRANTY—CONDITIONS OF SALE

OUR RECOMMENDATIONS FOR USE of this product are based upon tests believed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the Seller. To the extent consistent with applicable law, Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith.

To the extent consistent with applicable law, in no case shall the Manufacturer or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product when such use and/or handling is not in strict accordance with directions given herewith. The foregoing is a condition of sale by the Seller and is accepted as such by the Buyer.
