Kills: roaches, gnats, flies, and other spray outdoors, kills ants, bees, spiders, crickets & boxelder bugs.

CAUTION!
KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing of fog or mist. Avoid contact with skin; wash thoroughly after using. Avoid contact with eyes.
This product is toxic to fish. Do not use in ponds, streams or ponds. Do not apply to water. Do not use in areas where children or animals are present. Do not use in areas where children or animals are present. Do not use in areas where children or animals are present.

In proper, specialized application, this fogging insecticide is an effective insecticide that permits its use as a fog or residual treatment. Use in accordance with manufacturer's directions for the individual type application selected. In all cases, the application rate should be sufficient to thoroughly fill the area with fog or vapor. Generally, a rate of one gallon per acre is sufficient for control (A typical example for a fogging application would be to apply at a rate of 4 gallons per hour, traveling at 15 mph.)
Keep away from children and animals. Do not use in areas where children or animals are present. Do not use in areas where children or animals are present. Do not use in areas where children or animals are present.
