

GENERAL INFORMATION

MOBLEY "B-5" LIQUID WEED KILLER is a finished herbicide formulation which requires no further dilution for application to non-cropland areas. It is an effective herbicide for control of brush and many annual and perennial weeds, and is particularly useful for control of perennial grasses. Effects are slow to appear and may not become apparent until the chemical has been carried into the root zone of the weeds by moisture. The degree of control and duration of effect will vary with the amount of chemical applied, soil type, rainfall, and other conditions. MOBLEY "B-5" LIQUID WEED KILLER is non-volatile, non-flammable and non-corrosive to ferrous metals. Avoid prolonged contact on aluminum, brass, or bronze spraying equipment.

DIRECTIONS

Apply MOBLEY "B-5" LIQUID WEED KILLER just before or during the period of active growth of weeds. If dense growth is present, results will be improved if vegetation is removed before treatment. Do not apply when ground is frozen.

WEED CONTROL

To control most weeds for an extended period of time on non-cropland areas such as Railroad roadbeds, yards, siding, trestles, storage areas, and on Industrial Plant Sites:

Apply 60 to 120 gallons MOBLEY "B-5" LIQUID WEED KILLER per acre to control ANNUAL WEEDS and GRASSES such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, bromegrass, ragweed, lambsquarter, puncture vine, orchardgrass, and turkey mullein. When applied just prior to or after emergence of annuals, rates as low as 30 gal. per acre control many annual weeds and grasses in low rainfall areas and give short term control in higher rainfall areas.

Apply 120 to 240 gallons per acre MOBLEY "B-5" LIQUID WEED KILLER to control PERENNIAL WEEDS and GRASSES such as smooth brome, Bahiagrass, bluegrass, redtop, purpletop, quackgrass, broomsedge, aster, dandelion, dog fennel, goldenrod, plantain and wild carrot. In areas with low or seasonal rainfall, rates as low as 90 gals. per acre control many perennial weeds and grasses.

ACCEPTED

March 6, 1973
UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
UNDER NO. 20001-3

MOBLEY "B-5" Liquid Weed Killer

WATER SOLUBLE LIQUID

ACTIVE INGREDIENTS:

Bromacil (5-bromo-3-sec-butyl-6-methyluracil) 0.6%

INERT INGREDIENTS:

99.4%

Total 100.0%

EPA Reg. No. 20001-3

KEEP OUT OF REACH OF CHILDREN

CAUTION: CAUSES EYE IRRITATION.
MAY IRRITATE NOSE, THROAT, AND SKIN.

Do not get in eyes. Avoid contact with skin and clothing. Avoid breathing spray mist. Wash thoroughly after handling. In case of contact, flush eyes or skin with plenty of water; for eyes, get medical attention.

IMPORTANT—Injury to or loss of desirable trees or other plants may result from failure to observe the following: Do not apply, or drain or flush equipment on or near desirable trees or other plants or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. Do not use on lawns, walks, driveways, tennis courts, or similar areas. Prevent drift of spray to desirable plants. Do not contaminate irrigation or domestic waters. Keep from contact with fertilizers, insecticides, fungicides, and seeds. Thoroughly clean all traces of MOBLEY "B-5" LIQUID WEED KILLER from application equipment immediately after use. Flush tank, pump, hoses, and boom with several changes of water after removing nozzle tips and screens (clean these parts separately).

APPLIED CHEMICALS DIVISION

MOBLEY COMPANY, INC.

108 Industrial Ave.

KILGORE, TEXAS

NET U.S. GALLONS

Apply 160 to 320 gals. JOHNSONGRASS; use a WEEDS and GRASSES such as saltgrass, bouncingbet, rainfall (usually less than such as some areas of t provide satisfactory control as Johnsongrass.

Use the higher levels of t in organic matter or carbon. RETREATMENT — Apply 3 acre when annual weeds been controlled.

FOR SMALL AREAS — On 260 gals. per acre.

Apply as a broadcast in on non-cropland areas such as INDUSTRIAL PLANT SITES control and prevention of brush in standing water; do not use in irrigation di able or other desirable tr area.

BROADCAST TREATMENT willow, sweet gum, and such as American elm, v the higher levels of the d matter or carbon).

Seller warrants that this p thereof and is reasonably in accordance with directi not extend to use of th abnormal use conditions, seller; buyer assumes all r express or implied.

_____ NET U.S. GALLONS

Apply 160 to 320 gals. MOBLEY "B-5" LIQUID WEED KILLER per acre to control JOHNSONGRASS; use at the same rate for OTHER HARD-TO-KILL PERENNIAL WEEDS and GRASSES such as Bermudagrass, Dallisgrass, nutsedge, Vaseygrass, saltgrass, bouncingbet, dogbane, bracken fern and horsetail. Where limited rainfall (usually less than 4 inches) occurs during the active growth period, such as some areas of the West, MOBLEY "B-5" LIQUID WEED KILLER will not provide satisfactory control of hard-to-kill, deep rooted perennial weeds such as Johnsongrass.

Use the higher levels of the dosage ranges on adsorptive soils (usually those high in organic matter or carbon).

RETREATMENT — Apply 30 to 120 gals. MOBLEY "B-5" LIQUID WEED KILLER per acre when annual weeds and grasses reappear on sites where weed growth has been controlled.

FOR SMALL AREAS — One and one-half gals. per 250 sq. ft. is approximately 260 gals. per acre.

BRUSH CONTROL

Apply as a broadcast in spring or summer to control undesirable woody plants on non-cropland areas such as RAILROAD RIGHTS-OF-WAY, STORAGE AREAS, INDUSTRIAL PLANT SITES, and DRAINAGE DITCHES. NOTE: For effective brush control and prevention of damage to desirable vegetation: do not apply to brush in standing water; do not use water from treated ditches for irrigation; do not use in irrigation ditches nor on rights-of-way or other sites where marketable or other desirable trees or shrubs are immediately adjacent to the treated area.

BROADCAST TREATMENT — Apply 112 to 192 gals. per acre to control oak, willow, sweet gum, and pine; apply 240 to 480 gals. per acre to control brush such as American elm, winged elm, hackberry, sumac, and cottonwood. Use the higher levels of the dosage ranges on adsorptive soils (those high in organic matter or carbon).

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label use directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller; buyer assumes all risk of any such use. Seller makes no other warranties, express or implied.
