Klens-Chlor

NAME AND ACORESS OF PEGISTRANT (Include ZIP code)

Klenswite Pool/Spa Supply 3207 Route 9 South Rio Grande, N. J. 08242-1006

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide. Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on the General Registration Standard -- "Guidance for the Registration and Reregistration of Pesticide Products containing Sodium or Calcium Hypochlorite as the sole active ingredient" -- issued February 1986 and revised April 1986, EPA has registered the product listed above. This registration is granted under the authority of FIFRA section 3(c)(7).

Make the labeling changes listed below before you release the product for shipment.

- a. Add the phrase "EPA Registration No. 20729-20001".
- b. A hypochlorites reregistration document has been issued which lists several labeling comments that supersede certain statements in the older hypochorites Registration Standard. The labeling comments in the newer document that may be applicable to your product are enclosed. Even though you won't be submitting your labeling or Agency review, your labeling nevertheless must be in compliance with these enclosed comments.

As you are aware, as part of your response to the Guidance Document, you submitted a statement of "Certification for General Registration/Reregistration for Hypochlorite Products" in which you certified that your product meets the criteria for registration under this standard. Failure to comply with this certification may result in the Agency's issuance of a Notice of Intent to Cancel the registration under FIFRA section 6(b)(1).

DANGER **CORROSIVE** Causes severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Vacate poorly ventilated areas as soon as possible. Do not return until ordors have dissipated.

HAZARDOUS TO HUMANS AND ANIMALS

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent cannot be disharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidiang Agent!! Mix only with water according to label directions. Mixing this product with gross filth such as feees, urine, etc, or with ammonia, acids, detergents, or other chemicals will relase hazardous gasses irritating to the eyes, lungs, and mucous membranes. Sodium Hypochlorite Solution degrades with age. If used later than ten (10) days after packaging, use a chlorine test kit to insure that the solution will provide the amount of available chlorine desired.

STORAGE AND DISPOSAL

Keep this product in a tightly closed container when not in use. Store in a cool, dry. well vantilated area away from heat or open flame. In case of splf, isolate container and flood area with large amounts of water to dissolve all material. Dispose of according to local, state, and federal regulations. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

DISINFECTANT SANITZER BACTERICIDE

DEODORANT FOR: Food Processing Plants, Dairy Plants, Farms, Hotels, Restaurants, Taverns and Swimming Pools.

UN NO. 1791 APPROVED BY USDA

Wash with plenty of soap and water. IF IN EYES, Flush with water for at least 15 minutes. Get medical attention! IF SWALLOWED, Drink promptly a targe quantity of water. Do not induce vomiting. Avoid alcohol. Get prompt...

Note to physician: probable mucosal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR USE: ADD 1 GAL SODIUM HYPOCHLORITE TO 15,000 GAL. POOL WATER DAILY, OR AS NEEDED. MIX WITH WATER ONLY. DO NOT SPLASH CONTENTS IN EYES, ON CLOTHES, OR ON SKIN. IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. For a new pool or for spring start-up, superchlorinate with one pint (16 fl ozs.) of this solution for each 300 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

5.5

FOR POOL MAINTENANCE: a) Adjust pool water pH to 7.0 - 7.2 range and maintain. b) Add manually or by a feeder device this solution at a rate of 0.8 to 1.0 ppm. One fourth pint (4 ft. ozs.) of this solution for each 4000 gallons of water will provide 1.0 ppm. available chlorine by weight. Frequency of additions to maintain 0.8 to 1.0 ppm. available chlorine will depend on temperature and number of bathers. Use test kit to make certain the pH and chlorine residual are in the proper range.
