

**TEST** SNAIL-SLUG & INSECT SPRAY

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS

SNAIL-SLUG & INSECT SPRAY mixes readily with water and may be used in all types of sprayers. For control of listed insects use enough spray to thoroughly wet the affected plants or turf areas. Do not use on fruit or vegetable crops. Repeat as needed to control.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.

**WARNING: KEEP OUT OF REACH OF CHILDREN. MAY BE FATAL IF SWALLOWED, INHALED OR ABSORBED THROUGH THE SKIN.** Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Do not breathe spray mist. Do not take internally. Do not get into eyes, on skin, or on clothing. Wash thoroughly with soap and water after using. Keep children and domestic animals off treated areas until surfaces have dried. **Note for physician:** Active ingredient has cholinergic effects. Atropine is antidotal. When container is empty, wash thoroughly and destroy. Never reuse.

**WARNING: DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.**

**HORTICULTURAL CAUTION:** Do not use on Maidenhair Fern, Cape Chestnut or Geraldton Wax Flower. Excessive application may cause slight leaf injury to new growth on Roses.

This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. This product is highly toxic to bees exposed to direct treatment or residues on crops or lawns. Protective information may be obtained from your cooperative Agricultural Extension Service.

**TEST** SNAIL-SLUG & INSECT SPRAY

**DIRECTIONS**

**SNAIL & SLUG CONTROL:** DILUTE 1 TABLESPOON 1/2 FL OZ PER GALLON OF WATER. Thoroughly wet all plants, soil surfaces, building foundations or other places harboring snails or slugs. Feeding stops soon after treatment but complete kill may be delayed 2 or 3 days.

**TURF PESTS:** Sod Webworm, Lawn Moth, Cutworms, Armyworms, Millipedes, Sowbugs, Pillbugs, on Bluegrass, Bermudagrass, Dichondra and other ground covers. Dilute 1 tablespoon per gallon of water and apply to 130-180 sq. ft. Water lawn well before application. For best results do not water again for 3 days after treatment.
