Japanese Beetle Trap

WITH PHEROCON® LURE

ZOECON Japanese Beetle Trap uses a highly active bait system to trap beetles that damage valuable plants. Convenient, sturdy design is compatible with the environment and is not harmful to birds and beneficial insects.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS CAUTION

Avoid contact of Floral Lure contents with skin and eyes. Wash thoroughly with soap and water after assembly and positioning of trap. If irritation occurs seek medical attention.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in a cool place until trap is to be used.
Change bags frequently to avoid repelling effect of dead beetle odor. Seal bag containing dead beetles with rubber band or by knotting and place in trash.
DISPOSAL: Wrap bait and dispose in trash.

WARRANTY

... Seller warrants that the chemical composition of this product conforms to the description on the label. Seller makes no other warranty, express or implied.

ZOECON JAPANESE BEETLE TRAP CONTAINS:

- Three disposable trap bags
- One PHEROCON lure (containing female Japanese beetle sex pheromone)
- Two Floral Lure Cups

Beetles are attracted to the trap and fall inside where they die.

USE INSTRUCTIONS

Locate the trap downwind of foliage to intercept beetles heading toward it. Placing trap in foliage should be avoided so that beetles are not attracted to plants. Hang the trap from any convenient post or stake so that the bottom of the bag is at least a foot above the ground and has freedom of movement. Replace the bag when the lower portion becomes full of beetles. For maximum effectiveness traps should be placed about one week before beetles are expected to appear (usually June or July). Replace Floral Lure cup after about five weeks or when the floral aroma is no longer readily noticeable.

TRAP PLACEMENT

Suggested # Traps	Size of Use Area
1	up to 5000 sq. ft.
2	5000-10,000 sq. ft.
3	10,000-20,000 sq. ft.
4**	1/4 acre and larger

** or place 1 trap every 150 feet along perimeter

Dear Ms. Breaux:

Subject: Zoecon Japanese Beetle Trap
EPA Registration No. 20954-00105
Your Submission of November 9, 1982

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

F. Gee
