Tea, Soup, or Serving? STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Induce vomiting by sticking spoon down throat or by giving an ounce of syrup of Ipecac and two glasses of water.
IF INHALED: Remove to fresh air.
IF ON SKIN: Flush with large quantity of water, cleanse with soap and water.
IF IN EYES: Flush with a direct stream of water for 15 minutes.
Get immediate medical attention for all overexposures.

ENVIRONMENTAL HAZARDS

This product is toxic to birds, fish and other wildlife. Permits may be required for discharges containing this pesticide into lakes, ponds, streams or public waters. For guidance, contact your Regional Office of the U.S. Environmental Protection Agency.

STORAGE AND DISPOSAL

Do not contaminate food, feed, or water by storage or cleaning of equipment. Open burning and dumping is prohibited.
Do not reuse empty container.
Pesticide Disposal: Pesticide that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.
Container Disposal: Dispose of in an incinerator or approved landfill or bury in a safe place.

INSTRUCTIONS FOR REPACKAGING

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This pesticide may be used only for repackaging an insecticide. No changes may be made in formulation either by dilution or addition of other ingredients. It is the responsibility of the repackager to obtain EPA registration for his product. Additional data may be required to support registration of any repacked products if the labeling, text, or graphics are altered from the example given and if the hazard or efficacy are affected by such alterations.

size of the front panel signal word to a minimum of 18 point type. The "KEEP OUT OF REACH OF CHILDREN" and the heading "STORAGE AND DISPOSAL" must be increased to a minimum of 12 point type.

- c. The front panel phrase "FOR REPACKAGING OF AN INSECTICIDE" should also be in a minimum of 12 point type.
- d. From the "HAZARDS TO HUMANS" section delete "or spray mist" as this phrase implies reformulating into another product. (Since this product is crystalline, it should stay that way merely being repacked.)
- e. Revise the following under "HAZARDS TO HUMANS":

"Wash thoroughly with soap and water after handling and before eating or smoking."

(As the present statement now reads, it implies that washing thoroughly is only necessary if you have handled this product with soap and water.)

- f. The STATEMENT OF PRACTICAL TREATMENT is not sufficient, furthermore, sticking an object such as a spoon down the victim's throat is specifically prohibited. We suggest the following STATEMENT OF PRACTICAL TREATMENT, however, if your toxicological information suggests otherwise, please submit a draft STATEMENT OF PRACTICAL TREATMENT for prior approval.

"STATEMENT OF PRACTICAL TREATMENT

If swallowed-Call a physician or Poison Control Center immediately.

Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled- Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin- Remove contaminated clothing and wash affected areas with soap and water.

If in eyes- Flush eyes with plenty of water. Call a physician immediately."

- g. Revise your "STORAGE AND DISPOSAL" statement in accordance with the enclosure. Note: the first line of the present statement is misleading, it instructs the user not to contaminate water, food or feed by storage or cleaning of equipment. Please use the sentence given in the enclosure; this informs the user not to contaminate water, food or feed by storage or disposal of the product!

- h. Revise your "ENVIRONMENTAL HAZARDS" section as follows:

"ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not discharge in lakes, streams, ponds or public waters unless in accordance with a National Pollution Discharge Elimination System permit. For guidance, contact you regional office of the EPA. Do not contaminate water by cleaning of equipment."

(Note: the way the present statement is written, it indicates that the product can normally be discharged into public waters but that in some cases a permit may be required.)

- i. The sentence "This pesticide may be used only for repacking an insecticide." does not make sense. Revise it to read:
"This pesticide may be used only for repacking as an insecticide."
(Underscore indicates added text and should not be reproduced on the label.)
- j. Under the "INSTRUCTIONS FOR REPACKING" change "my" to "may".

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
