

READ ALL LABEL DIRECTIONS CAREFULLY
BEFORE APPLYING

DIRECTION FOR USE

NEXION™ is an insecticide for use on St. Augustine grass to control Chinch bugs. Apply **NEXION** at the first sign of insect damage. Chinch bug damage is usually associated with a count of 20 to 30 chinch bugs to the sq. ft. Repeat treatment when necessary for continued control.

APPLICATION DIRECTIONS

Apply 4-½ oz. to 6 oz. of **NEXION** mixed with 30 to 40 gallons of water to each 1,000 square foot area. (*This is equivalent to 6 to 8 pounds active ingredient per acre.*)

This quantity of water is necessary since **NEXION** must penetrate into the mat of turf where the insects are feeding. The turf area should be irrigated prior to treatment.

DANGER: Undiluted emulsifiable concentrate causes severe eye burns. Wear goggles when handling. May be harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after using. Avoid breathing of spray mist. Avoid contamination of foodstuff, feeds and water.

FIRST AID: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

NOTE TO PHYSICIAN: Prolonged or repeated exposure may cause cholinesterase inhibition. Signs of poisoning may develop over a period of 48 hours or longer. Atropine is antidotal and should be used in conjunction with customary supportive treatment.

DANGER TO ENVIRONMENT: "This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label."

The manufacturer makes no warranties, express or implied, concerning this product or its use, which extend beyond the description on the label. All statements made concerning this product apply only when used as directed.

DO NOT STORE IN OR AROUND THE HOME.

DESTROY EMPTY CONTAINER. DO NOT REUSE.

NET CONTENTS
1 GALLON

an insecticide for professional use in turf

An insecticide for the control of chinch bugs in St. Augustine grass.

Active Ingredient:

O-(4-bromo-2, 5-Dichlorophenyl) O, O-dimethyl phosphorothioate	41.9%
