

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

DEC 14 2004

Marla K. Jackson, Agent for Pyranha, Inc.
Brazos Associates, inc.
1806 auburn Drive
Carrollton, TX 75007-1451

Dear Ms. Jackson:

Subject: Pyranha Insecticide
 EPA Reg. No. 21165-1
 Submission dated 8/4/04

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. **One copy of the finished labeling must be submitted prior to releasing the product for shipment.**

As this product contains petroleum distillate, the If Swallowed First Aid Statement must read as follows:

If swallowed: Immediately call a poison control center or doctor, Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

Richard Gebken
Acting Product Manager 10
Insecticide Branch
Registration Division (7505C)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hold container upright, with nozzle pointed away from you and press actuator button, spraying as directed.

TO TREAT HORSES: To protect horses from attacks of stable flies, horse flies, deer flies, house flies, horn flies, mosquitoes and gnats, spray about 3 seconds on each side being careful to spray legs, belly, neck, back, and sides. Cover eyes while spraying face, or spray on sponge or cloth and apply to face as a wipe. Repeat treatment as necessary when flies are troublesome. Brushing horse after applying will bring out a bright sheen.

TO KILL AND REPEL FLYING INSECTS: Spray in areas where insects congregate. Direct spray to contact insects for rapid knockdown and kill. Spray around outside of door facings and screens to render area unattractive to insects. This helps to repel insects and prevent entrance into building.

TO CONTROL COCKROACHES AND ANTS: Spray into cracks and crevices. Spray directly on cockroaches for fast kill. Apply behind refrigerator, stove and cabinets where insects tend to hide.
