Inert Ingredients	92.5%
	100.0%

Equivalent to 4 parts butylcarbitol, 6 parts propylpiperonyl ether and to 1 part of related compounds.

See rear panel for additional precautions.

NET WT. 2¼ LBS.

Manufactured Exclusively for
Chem-I-Matic, Inc.

P. O. 12283 • Houston, Texas 77017

Hold container upright, nozzle away from you and press actuator button spraying as directed.

To protect cattle from attacks of stable flies, horse flies, deer flies, house flies, horn flies, mosquitoes, and gnats, spray about 3 seconds on each side being careful to spray back withers and forelegs thoroughly. To protect from face flies, spray the face and head, but do not spray into the eyes. Repeat treatment as necessary when flies are troublesome.

For rapid control of flying insects, close windows and doors and spray at the rate of five to six seconds per 1,000 cubic feet of space. For best results keep area closed for 10 minutes after spraying. Do not remain in treated area and ventilate after treatment is completed.

Do not apply over uncovered milk or food products. Any exposed utensils or food handling surfaces should be thoroughly cleaned before use. Do not use in areas where fish or reptiles may be exposed to the spray.

Contents under pressure. Do not puncture container nor store at over 120 F. Do not incinerate. Do not use or store near heat or open flame.
