	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT DYNALIN Super Formulation	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

<input type="checkbox"/> Chem-1-PLANT, Inc. P.O. Box 220706 Houston, TX 77292	160 / 163063 18 / 1
---	------------------------

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or file all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 21165-26."
 - b. You must provide a description of your quality control procedures for our record.
 - c. You must provide a viscosity measure for the concentrate without propellant.
 - d. Delete "Caution" from the Contents Under Pressure statement and add the subheading:

PHYSICAL OR CHEMICAL HAZARD.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL 	DATE 5/13/86
--	-----------------

- e. We question the statement "Spray about 3-5 seconds." If this product will be used on horses, it is unlikely that a person can effectively spray an animal such as described in 3-5 seconds. More practical directions should be given or justify that the time interval is adequate.
- f. You must submit both an accelerated storage study and a 1-year study within 15 months from the date of the Notice of Registration.
- g. We do not have information supporting your 30-day surface spray claim. Please justify or delete from label.
- h. The precautionary statement should be revised to read similar to the following:

Harmful if swallowed or absorbed through skin.
 Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Remove pets, birds and cover fish aquariums before spraying.

- i. The term "Permakill" in the product name is unacceptable and must be deleted since it implies total eradication or elimination of pests. Our records have been adjusted to show "Pyranha ~~Insecticide~~ Equine Formulation" as the product name.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

George T. LaRocca
 Product Manager (15)
 Insecticide-Rodenticide Branch
 Registration Division (TS-767C)

DIRECT

It is a violation to use this product in a manner inconsistent with the label.

Hold container away from your face and button spray.

TO TREAT animals from flies, horse flies, horn gnats, spray each side of legs, belly. Cover eyes and spray on spot to face as treatment as needed. Troublesome after apply bright sheen.

TO KILL INSECTS: insects come to contact knockdown outside of render area. This helps vent entrance.

As surface days.
