**SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS**

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### SHAKE WELL BEFORE USING

For spot application only. Do not use as a space spray. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

Hold container upright, nozzle away from you and press actuator button spraying as directed.

### FOR HOUSEHOLD USE

**TO CONTROL COCKROACHES AND ANTS**  
To control cockroaches and ants spray into cracks and crevices. Spray directly on cockroaches for fast kill. Apply behind refrigerator, stove and cabinets where insects tend to hide.

**TO KILL AND REPEL FLYING INSECTS**  
Spray in areas where insects congregate. Direct spray to contact insects for rapid knock-down and kill. Spray around outside of door facings, screens to render area unattractive to insects. This helps to repel insects and prevent entrance into building.

### FOR CATS AND DOGS

**TO CONTROL TICKS, FLEAS, AND CHIGGERS**  
Spray on animal until fur is moistened lightly. To ensure thorough coverage part the fur by stroking against the lay of the hair while spraying. Ticks are tough, spray directly on them. Repeat until animal is free of insects, nits, or eggs that hatch.

**TO CONTROL TICKS AND FLEAS in the home:** vacuum carpets thoroughly. Spot treat those pet areas where fleas and ticks may live and breed. Do not vacuum treated area until flea and tick cycle is broken, usually 10-14 days. Re-treat vacuumed area.
