Formulation/ EPA Reg. No. 21165-33  
Your Applications Dated December 4, 2000

Dear Ms. Jackson:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

Your First Aid Statements are acceptable with the exception that you must include the following statement in it's entirety (you did not have the complete statement):

**HOT LINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-xxx-xxxx for emergency medical treatment information.

**With regard to EPA Reg. No. 21165-30:**

- 1) Per our letter of October 4, 1989, please add the statement "Do not use this product in or on electrical equipment due to the possibility of shock hazard" under a section entitled "Physical and Chemical Hazards".
- 2) Please specify how long the treatment areas should be ventilated for in your statement of "Treatment areas should be thoroughly ventilated prior to reentry by personnel".
- 3) Delete all "Repeat treatment/Retreat as necessary" - type statements and state the minimum allowable time period between applications. This should be based on your efficacy data.
- 4) Please submit or cite (with MRID numbers) efficacy data for fleas and bot flies. These pests were not on the label when you submitted (under the cite-all method of support) your product for registration in 1987.

**With regard to EPA Reg. No. 21165-33**

- 1) Per our correspondence of March 22, 1993, Please add the following statement to your Directions For Use: "Not for Use on Horses Intended For Human Consumption".

**With regard to EPA Reg. No. 21165-34**

- 1) In our February 1992 correspondence we did not allow a deer tick claim to be added to the label because the efficacy data you submitted was found unacceptable. Please remove all claims to the control/kill of deer ticks and references to Lyme disease or submit or cite (with MRID numbers) data to substantiate these claims. Additionally, please submit or cite (with MRID numbers) efficacy data for fleas, ticks, and bot flies. These pests were not on the original label which was submitted (under the cite-all method of support) with your product for registration in 1987.

**With regard to EPA Reg. No. 21165-39**

- 1) Please delete "ants and roaches" from your label since these are not considered equine pests.

3/7

- 2) Per our comment of October 2, 1989. Please remove "bot flies" from the label since we have no data of control of this pest with this formulation. Alternatively you may submit or cite (with MRID numbers) efficacy data to substantiate this claim.

If you have any questions regarding this action, please contact Tracy Keigwin of my team at (703) 305-6605.

Sincerely,

George T. LaRocca
