NOTE. Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The registrant is hereby notified that the following conditions apply to the registration of this product:

1. Submit all data required for registration for distribution of your product under FIFRA section 3(d)(5) within 90 days of the date of registration. Similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 21165-39."
- b. Change "Apply with sponge or soft cloth to those areas" to "Apply with sponge or soft cloth near those areas."
- c. Provide Pesticide Disposal statement for containers greater than one (1) gallon.
- d. Add a zero before the decimal point of the first active ingredient.
- e. Add "Equine" after "Pyranha" in "Add Pyranha Spray and wipe . . . ." in the Directions for Use.
- f. Delete Bot flies from the label. We have no data supporting control of this pest with this formulation.

3. Please provide a Storage Stability study. The formulated product must be analyzed for its active ingredient at time zero and during a year of storage. The storage should be in warehouse conditions of temperature and humidity and stored in similar containers as you will be using in the trade. Note: For the Storage Stability study you cannot reference the concentrate you are using to formulate your product.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca
