Madhu Mandava Agent for Namco, LLC Mandava Associates, LLC 6860 N Dallas Parkway Suite 200 Plano, TX 75024

FILE COPY

Subject: Blue Shield Liquid Chlor EPA Reg. No. 21268-9 Application Dated: June 1, 2010 Receipt Date: June 22, 2010

Dear Mr. Mandava:

The following notification submitted in connection with registration under the provisions of PR Notice 98-10, Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)9 is acceptable.

Proposed Notification:

Alternate Brand Name "Proline Liquid Chlor"

Comments:

Based on a review of the material submitted, the following comments apply:

This application for notification to add an alternate brand name, as referenced above, is acceptable. A copy has been placed in our records for future reference.

Should you have any questions concerning this letter, please contact me at <u>Henson.Wanda@epa.gov</u> or call (703) 308-6345.

Sincerely,

Wanda Henson Acting Product Manager (32) Regulatory Management Branch II Antimicrobials Division (7510P)

FIRST AID

IF IN EYES:

- Hold eye open and rinse with a steady, gently stream of water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- · Call poison control center or physician for treatment advice.

IF SWALLOWED:

- Call a physician or poison control center immediately for treatment advice.
- Drink promptly large quantities of water.
- DO NOT induce vomiting unless told to do so by poison control center or physician. Avoid alcohol.
- Do not give anything by mouth to an unconscious person.

IF INHALED

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably, mouth-to-mouth, if possible.
- Call poison control center or physician for treatment advice.

IF ON SKIN OR CLOTHING

- Take off contaminated clothing.
- •Wash skin with plenty of water for 15-20 minutes
- Call poison control center or physician for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call Chemtre 860=424;9300

DIRECTIONS FOR USE It is aviolation of federal law to use this product in a memor inconsistent with its labeling.

SWIMMING POOL-WATER DISINFECTION

For a new pool or Spring start up: Superchloringte with 1/2 gallon of this product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check level of available chlorine with a test kit. Adjust and maintain water pH to between 7/2 and 7/8. Adjust and maintain the alkalinity of the pool to between 50 to 100 ppm.

To maintain the pool. Add manually or by feeder device 11 oz. of this product for each 10,000 gallons of water to yield an available chlorine residual between 5 to 10 ppm available chlorine by weight. Stabilized pools should maintain a residual 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine residual and alkalinity of the water frequently with the appropriate test kits. Frequency of water treatment will depend on temperature and number of swimmers.

- Every 7 days - or as necessary: Superchlorinate the pool with 1/2 gallon of this product for each ten thousand gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Do not re-enter the pool until the chlorine residual is between 10 and 30 ppm.

At the end of the swimming pool season or when water is to be drained from the pool: Chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorine the pool within 24 hours prior to discharge.

Winterizing pools: While water is still clear and clean, add 3 oz of this product per thousand gallons of pool water, while the filter is running, to obtain a 3 ppm available chlorine residual, as determined by a suitable test kit. Cover pool, prepare heater, filter and heater components for winter by following manufacturers' instructions.

User Please Note: This product degrades with age. Use a chlorine test kit and increase dosage as necessary, to obtain the required level of available chlorine.
