Subject: Blue Shield Liquid Chlor
EPA Reg.#: 21268-9
Notification Date: January 21, 2013
Receipt Date: January 25, 2013

Dear Mr. Mandava:

This acknowledges the receipt of your notification, submitted under the provision of PR Notice 98-10 and FIFRA section 3(c)9.

Proposed Notification:

Change the Storage and Disposal statement per PR Notice 2007-4 for Blue Shield Liquid Chlor (EPA Reg# 21268-9).

General Comment:

Based on the review of the material submitted, this notification is acceptable.

This notification and a copy of this letter have been inserted in your file for future reference."

If you have any questions on this letter, please contact David Liem by email at liem.david@epa.gov or call at 703-305-1284.

Sincerely

Monisha Harris
Product Manager (32)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs, and mucous membranes.

DIRECTIONS FOR USE

It is a violation for Federal law to use this product in a manner inconsistent with its labeling.

SWIMMING POOL- WATER DISINFECTION

For a new pool or Spring start up, superchlorinate with 1/2 gallon of this product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check level of available chlorine with a test kit. Adjust and maintain water pH to be between 7.2 and 7.8. Adjust and maintain the alkalinity of the pool to be between 50 to 100 ppm.

To maintain the pool, add manually or by feeder device 11 oz. of this product for each 10,000 gallons of water to yield an available chlorine residual between 5 to 10 ppm available chlorine by weight. Stabilized pools should maintain a residual 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine residual and alkalinity of the water frequently with the appropriate test kits. Frequency of water treatment will depend on temperature and number of swimmers.

Every 7 days – or as necessary, superchlorinate the pool with 1/2 gallon of this product for each ten thousand gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Do not re-enter the pool until the chlorine residual is between 1.0 and 3.0 ppm.

At the end of swimming pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorinate the pool within 24 hours prior to discharge.

Winterizing pools: While water is still clear and clean, add 3 oz. of this product per 1,000 gallons of pool water, while the filter is running, to obtain a 3 ppm available chlorine residual, as determined by a suitable test kit. Cover pool, prepare heater, filter and heater components for winter by following manufacturers instructions.

User Please Note: This product degrades with age. Use a chlorine test kit and increase dosage as necessary, to obtain the required level of available chlorine.

6/16

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water.

PRODUCT DISPOSAL: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or reconditioning if appropriate or place in trash.
