# SHOCK TREATMENT

## FIRST AID

### IF IN EYES:

- Hold eye open and rinse with a steady, gentle stream of water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call poison control center or physician for treatment advice.

### IF SWALLOWED:

- Call a physician or poison control center immediately for treatment advice.
- Drink promptly large quantities of water.
- DO NOT induce vomiting unless told to do so by poison control center or physician. Avoid alcohol.
- Do not give anything by mouth to an unconscious person.

### IF INHALED

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably, mouth-to-mouth, if possible.
- Call poison control center or physician for treatment advice.

### IF ON SKIN OR CLOTHING

- Take off contaminated clothing.
- Wash skin with plenty of water for 15-20 minutes
- Call poison control center or physician for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call Chemtrec 800-424-9300

**NOTE TO PHYSICIAN:** Probable mucosal damage may indicate the use of gastric lavage.

SHOCK TREATMENT is a powerful oxidizing agent. It should be used only in a well-ventilated area. Do not use in confined spaces. Do not use in the presence of flammable vapors or gases. Do not use in the presence of combustible materials. Do not use in the presence of organic materials. Do not use in the presence of acids, alkalis, or other chemicals. Do not use in the presence of food or feed. Do not use in the presence of clothing or other materials. Do not use in the presence of skin or eyes. Do not use in the presence of mucous membranes. Do not use in the presence of respiratory equipment. Do not use in the presence of electrical equipment. Do not use in the presence of machinery. Do not use in the presence of vehicles. Do not use in the presence of buildings. Do not use in the presence of structures. Do not use in the presence of equipment. Do not use in the presence of materials. Do not use in the presence of objects. Do not use in the presence of anything.

### PHYSICAL AND CHEMICAL HAZARDS

**STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs, and mucous membranes.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DIRECTIONS FOR POOL USE:** To establish a chlorine residual: Add 1/2 gallon for each 10,000 gallons of water. Repeat dosage until a chlorine residual of 0.6 to 1.0 ppm is obtained. The pool water should be maintained at pH 7.2 to 7.6 as determined by a test kit.

**Daily Chlorination:** Add 1 1/2 oz. for each 10,000 gallons of pool water daily or as needed to maintain 0.6 to 1.0 ppm chlorine residual at all times in unstabilized pools. In pools that have been stabilized with cyanuric acid, a chlorine residual of 1.0 to 1.5 ppm should be maintained at all times. The quantity of daily addition will vary with temperature, sunlight, bathing load, and other factors. Test pool water frequently with a chlorine test kit to maintain the desired chlorine residual. Bathers should not be allowed in the pool when the residual chlorine is above 2.0 ppm.

**SUPER CHLORINATION PURPOSES:** For effective algae control, a regular program of superchlorinating at least once a week, preferably at night while pool is not in use should be maintained.

**DIRECTIONS:** Add 1 gallon for each 20,000 gallons of pool water directly to the pool water.

**NOTE:** This product degrades with age. Use a chlorine test kit and increase dosage as necessary, to obtain the required level of available chlorine.

**STORAGE AND DISPOSAL:** Store in a cool dry area away from direct sunlight. In case of a spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product or rinsate that cannot be used should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food, or feed by storage, disposal or cleaning equipment.
