Mr. Madhu Mandava North American Marketing Corporation (NAMCO) 100 Sanrico Drive Manchester, CT 06040

Subject: Blue Shield Jumbo Slo-Poke

EPA Registration Number 21268-12

Application Date: 1/10/03 Receipt Date: 1/15/03

Dear Mr. Mandava:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

To revise the "First Aid" Statement in accordance with PR Notice 2001-1

Conditions

- 1. Place the "First Aid" Statement on front panel of the label.
- 2. Change the re-entry level for swimming pools to read: "The re-entry into treated swimming pools is prohibited above levels of 3 ppm chlorine residual".

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

DO NOT MIX WITH OTHER CHEMICALS

NEED HELP? SEE YOUR BLUE SHIELD® DEALER FOR PROFESSIONAL WATER ANALYSIS.

FIRST AID Hold sys open and rinse slowly with a steady, gentle stream of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. · Call a poison control center or physician for treatment advice. · Call a physician or poison control center immediately for treatment advice. · Orink promptly large quantities of water. O NOT Notice womiting unless told to do so by polson control center or physician. Avoid alcohol. Do not give anything by mouth to an unconscious person. · Move person to fresh air. . If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably, mouth-to-mouth, if possible. Call a poison control center or physician for treatment advice. Take off contaminated ciothing. If on skin cloth ina: · Wash skin with plenty of water for 15-20 minutes. Call a poison control center or physician for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information, call Chemitrec 800-424-9300

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. PRECAUTIONARY STATEMENTS

HAZAROS TO HUMANS AND DOMESTIC ANIMALS DANGER; CORROSIVE; Causes ineversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists, imitating to nose and throat, Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and fubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT, Mix only with water. Use clean, dry utensits. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat. Riberation of hazardous gases, and possible generation of fire and explosion, in case of contamination or decomposition, do not reseal container, if possible, isolate container in open air or well ventilated area. Flood with large volumes of water if necessary to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This posticide is toxic to fish and equatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the pennitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventifated area away from heat or open flame. In case of decomposition, isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water if necessary to dissolve all material before discarding container in trash. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, soray mixture of rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions. contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. FOR USE IN SKIMMERS. FLOW-THROUGH & FLOATING FEEDERS. DO NOT ADD DIRECTLY TO POOL. One tablet (approximately 7 oz.) will provide approximately 5.0 ppm of available chlorine in 10.000 galions of water.

START-UP:

- 1. Adjust pH of pool water to the 7.2 to 7.6 range with pH Increase or pH Decrease as required following label directions.
- 2. To a clean pool water which is free of visible algae, add a fast acting chlorinating product to superchlorinate the pool, following label directions. Do not enter the pool until the chlorine residual has dropped below 2.0 ppm (parts per million).
- 3. Test water for chlorine residual using a reliable test kit.
- 4. If chlorine residual is below 1.0 to 1.5 ppm (parts per million), repeat treatment until proper level is
- 5, If your pool has not been stabilized previously, add Blue Shield Conditioner and Stabilizer (cyanuric acid) according to label directions. Re-entry into treated swimming pools is prohibited above levels of 2.0 ppm (parts per million) chlorine residual.

REGULAR CARE:

- 1. After start-up, add one BLUE SHIELD® JUMBO SLO-POKE® for every 10,000 gallons of pool water. Place tablets in skimmer or dispenser until dissolved.
- 2. Add one BLUE SHIELD® JUMBO SLO-POKE® for each 10,000 gallons of water each week or as needed to maintain a chloring residual of 1.0 to 1.5 ppm as determined by a reliable test kit.
- 3. Check pool water daily with a reliable test kit and maintain a chlorine residual of 1.0 to 1.5 ppm.
- 4. During extremely hot weather and/or heavy bather loads, additional treatment may be required.

NEVER PUT TABLETS DIRECTLY INTO POOL WATER, ADD TABLETS TO SKIMMER, DISSOLVING BASKET OR SUITABLE FEEDER, NEVER MIX POOL CHEMICALS TOGETHER! ALWAYS ADD THEM SEPARATELY!

a martingly has programmed a three parties.
