slo-stix®

ACCEPTED

FEB 7 1997

Under The Federal Insecticide, Fungicide and
 Rodenticide Act, as amended, for the
 pesticide registered under
 EPA Reg. No. 21268-14

Stabilized
Concentrated
Chlorinating Sticks

Net Weight
8 lbs.

ACTIVE INGREDIENT:		
Trichloro-s-triazinetrione.....	99.5%	
INERT INGREDIENTS:.....	0.5%	
TOTAL	100.0%	
PROVIDES 90% AVAILABLE CHLORINE		

KEEP OUT OF REACH OF CHILDREN

BLUE SHIELD SLO-STIX®

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Using a reliable test kit, adjust the pH of the pool water, if necessary, to the pH range of 7.2 to 7.6. If the pH is below 7.2 add pH Increase. If the pH is above 7.6 add pH Decrease.

1. If the pool has not previously stabilized, add Conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.
2. Superchlorinate the pool water using a fast acting chlorinating product. Follow label directions. Do not use pool until the chlorine residual drops to 2.0 ppm (parts per million).
3. Blue Shield Slo-Stix® are intended for use in a tablet dispenser, automatic in-line chlorinator, or other similar dispensers or in-line feeders. Adjust the chlorine dispensing rate or the dispenser or feeder to provide a chlorine residual of 1.0 to 1.5 ppm (parts per million). A suggested dosage is one stick (8 oz.) per 11,500 gallons of water per week. This dosage may vary due to unusual conditions such as heavy bather load, wind, heavy rains, or high temperatures. If those conditions exist frequent use of a test kit is recommended. Do not add these sticks directly to pool or mix with any other chemicals.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED, drink promptly large quantities of water. DO NOT induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF INHALED, remove person to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get immediate medical attention.

IF ON SKIN, Wash with plenty of soap and water. Get medical attention.

IF IN EYES, Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container (if possible) in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not

reseal container. Isolate container (if possible) in open air or well ventilated area. Flood with large volumes of water to dissolve all materials before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
