

E-Z Cartridge™

ACCEPTED
 FEB 7 1997
 For The Federal Insecticide, Fungicide and
 Rodenticide Act, as amended, for the
 pesticide registered under
 EPA Reg. No. 21268-16

ACTIVE INGREDIENT:		
Trichloro-s-triazinetrione.....	99.5%	
INERT INGREDIENTS:	0.5%	
TOTAL	100.0%	
PROVIDES 90% AVAILABLE CHLORINE		

KEEP OUT OF REACH
OF CHILDREN
DANGER

ACCEPTED

FEB 7 1997

For The Federal Insecticide, Fungicide and
Rodenticide Act, as amended, for the
pesticide registered under
EPA Reg. No. 21268-16

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

1. Check the pH of the pool water with a test kit and adjust as necessary with pH Increase or pH Decrease to maintain a pH range of 7.2 to 7.6
2. Add Blue Shield's Stabilizer and Conditioner if the pool water has not been stabilized previously.
3. Superchlorinate newly filled pool or a pool with no chlorine residual using one of Blue Shield's chlorinating products. Follow the label directions for that product.
4. Punch out the holes marked "1" and "2" on the sides of this cartridge. Then punch out additional holes until a satisfactory chlorine residual is reached. As more holes are punched, the chlorine residual will rise. Dosage may vary in accordance with temperature, bather load and amount of water flow.
5. It is recommended that the pH and chlorine levels be checked daily with a test kit to maintain a pH level of 7.2 to 7.6 and a chlorine residual of 1.0 to 1.5 ppm (parts per million). Do not use pool until the chlorine residual drops to 2.0 ppm (parts per million).
6. When the cartridge is empty, replace it immediately.

The Blue Shield E-Z Cartridge is designed to be used in automatic chlorinators, floating dispensers and other types of flow thru proportioning devices. In certain pools, the cartridge may be placed in the skimmer cover. Follow the equipment manufacturer's directions to insure a constant chlorine residual of 1.0 to 1.5 ppm. **IMPORTANT:** Do not remove tablets from cartridge or refill when empty. If the cartridge is placed in the skimmer, do not add other chemicals to the skimmer. Do not mix this product with other chemicals.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED, drink promptly large quantities of water. DO NOT induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF INHALED, remove person to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get immediate medical attention.

IF ON SKIN, Wash with plenty of soap and water. Get medical attention.

IF IN EYES, Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL AND CHEMICAL HAZARDS

DANGER STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, isolate container (if possible) in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container in trash. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
