

USE DIRECTIONS: For light duty cleaning, sanitizing and deodorizing, use 2 ounces per gallon.

For heavy duty cleaning and disinfecting and fungicidal activity against pathogenic fungi, use 4.5 ounces per gallon.

For best results, use PUR-IT-ALL CLEANER DISINFECTANT with a cloth or mop and apply to walls, floors and other inanimate hard surfaces. If used for sanitization of previously cleaned food contact items, limit the level to 200 ppm of quaternary (8 ounces per 5 gallons). At this level, No Potable Water Rinse is required.

For extra heavy industrial cleaning and sanitizing, use a second application.

Do not mix with soap or anionic solutions.

PUR-IT-ALL CLEANER DISINFECTANT is non-corrosive in use dilutions on inanimate hard surfaces.

DANGER

KEEP OUT OF REACH OF CHILDREN. SEE FIRST AID
AND OTHER PRECAUTIONS ON RIGHT PANEL.

PUR-IT-ALL CLEANER DISINFECTANT is a heavy duty cleaner and disinfectant designed for general purpose use where heavy duty cleaning and sanitizing is of prime importance. When used as directed, PUR-IT-ALL CLEANER DISINFECTANT will remove most household dirt and grime in a single, simple application. When used for industrial cleaning, follow the use directions shown on the left side panel.

Not recommended for Pseudomonas aeruginosa.

For sanitation of previously cleaned food processing equipment or food contact items, limit the active quaternary to 200 ppm. At this level, No Potable Water Rinse is Required.

DANGER

KEEP OUT OF REACH OF CHILDREN.

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Rinse empty container thoroughly with water and discard.
