

TARGOSZ 121 is a germicide with an organic soil tolerance. Its disinfecting action has been verified in the AOAC Use-Dilution Test against *Staphylococcus aureus*, *Salmonella choleraesuis*, and *Pseudomonas aeruginosa* in the presence of significant amounts of serum as a source of organic matter. This means that one-step disinfection and cleaning can be achieved when used as directed.

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions and industry.

TARGOSZ 121 is formulated for this problem area. It cleans, disinfects, and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

TARGOSZ 121 is virucidal against Herpes Simplex (a member of the Herpes viruses that cause chicken pox, severe brain infections, and infections mononucleosis), Vaccinia (representative of the pox virus) and Influenza A<sub>2</sub> (the Hong Kong flu virus) on inanimate environmental surfaces.

**FIRST AID**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent convulsions may be controlled by the cautions intravenous injection of a short-acting barbiturate drug.

**USE DIRECTIONS**

Apply TARGOSZ 121 to walls, floors, and other hard surfaces such as tables, chairs, and bedframes with a cloth or mop. This product will clean and disinfect in the presence of organic soil when used as directed.

When encountering organic soil in hospitals, nursing homes, schools, institutional and industrial uses, add two ounces per gallon of water.

At two ounces per gallon use-level, TARGOSZ 121 is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, and *Salmonella choleraesuis*. Germicidal performance against these organisms has been confirmed by the AOAC Use-Dilution Test in the presence of organic soil.

For routine disinfecting in hospitals, nursing homes, schools, institutional and industrial uses, add one ounce per gallon of water.

At one ounce per gallon use-level, TARGOSZ 121 is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, and *Salmonella choleraesuis*. Germicidal performance against these organisms has been confirmed by the AOAC Use-Dilution Test.

At one ounce per gallon use-level, TARGOSZ 121, is virucidal against Herpes Simplex, Vaccinia, and Influenza A<sub>2</sub> (the Hong Kong flu virus).

One ounce of TARGOSZ 121 per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.

Do not reuse empty container. Destroy by perforating or crushing and discard in a safe place.
