US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20480  <b>NOTICE OF PESTICIDE:</b> <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	EPA REGISTRATION NO. 22555-2  TERM OF ISSUANCE  NAME OF PESTICIDE PRODUCT That Flowable Sulfur	DATE OF ISSUANCE JUN 23 1986
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)  <div style="display: flex; justify-content: space-between;"> <div>           Stoller Chemical Company            8582 Katy Freeway, Suite 200            Houston, TX 77024         </div> <div style="text-align: right;">           656 174477  <u>17</u>      <u>2</u> </div> </div>		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.  A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
Based on your response to the Registration Standard Guidance Package, EPA has reregistered the product listed above. This registration is granted under the authority of section 3(q) of FIFRA.		
The labeling referred to above, submitted in connection with registration under FIFRA, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted.		
<ol style="list-style-type: none"> <li>1. Change "Harmful if . . ." to "Harmful if swallowed, inhaled, or absorbed through skin."</li> <li>2. Delete "May cause irritation of nose, throat, or skin."</li> <li>3. Add "Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse."</li> <li>4. Add "Do not apply when weather conditions favor drift from treated areas" to the environmental hazards statement.</li> <li>5. Change "Use Precautions" to "Note to User."</li> <li>6. The correct Pesticide Disposal statement is "Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility."</li> </ol>		
<div style="display: flex; justify-content: space-between;"> <div> <input type="checkbox"/> ATTACHMENT IS APPLICABLE             SIGNATURE OF APPROVING OFFICIAL   </div> <div>           DATE            6/23/86         </div> </div>		

7. Add a dermal first aid statement.
8. Incorporate all the necessary language from PR Notice 83-2, Farmworker Safety.

Fungicide-Herbicide Branch  
Registration Division (TS-767C)

# PRECAUTIONARY STATEMENTS Hazards To Humans and Domestic Animals

## CAUTION

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat or skin. Avoid contact with eyes, skin and clothing. Do not reenter fields within 24 hours after application.

## ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

## USE PRECAUTIONS

Some fruits and other plants are susceptible to injury from sulfur under certain climatic conditions. The user is advised not to use sulfur on any crop unless local use has proved that sulfur is safe in that locality. When crops are intended for processing, consult with processor before applying sulfur.

During periods of high temperature sulfur may burn foliage and fruit. Do not make sulfur applications at excessively high temperatures. Do not use sulfur with oil or within 4 weeks of an oil application unless in a dormant, delayed dormant, or postharvest application.

When sulfur is used with arsenicals, lime should be added to prevent plant injury.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## DIRECTIONS FOR MIXING

### BEFORE USING, STIR UNTIL SMOOTH

Four recommended amount in partially filled spray tank. Keep agitator running during filling and spraying operation. DO NOT ALLOW MIXTURE TO STAND. Failure to maintain agitation will cause THAT Flowable Sulfur to settle and may necessitate manual stirring to redisperse. When used with dormant oil, add oil when tank is 1/2 full and maintain agitation until spraying is completed.

The strong adhesive properties of THAT Flowable Sulfur act as a sticker on the plant, and the sticking characteristic necessitates the flushing of equipment with water after each day's use. Sulfur in any form is corrosive material. TO REDUCE THE EFFECT, EQUIPMENT SHOULD BE FLUSHED DAILY.

THAT is adaptable to spraying from all types of spray equipment. For dilute, high volume sprays apply 25 to 100 gallons per acre (GPA) for most vegetable crops, 400 to 800 GPA for fruit orchards and up to 1500 GPA as may be required for large citrus groves. For concentrate ground sprays, use 5 to 20 GPA for most vegetable crops and 25 to 100 GPA for fruit and nut crops. For aerial spraying, 3 to 15 GPA are commonly used.

## STORAGE AND DISPOSAL

**PROHIBITIONS:** Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE DISPOSAL:** Pesticide spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) and offer for recycling or reconditioning or dispose of in a sanitary landfill or by incineration if permitted by State and local authorities.
