STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry place. Do not open until ready to use.

DISPOSAL: When floral lure element no longer has detectable odor, wrap and dispose of it in regular trash collection. Sex lure button may be disposed of in same manner.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE

Open the green plastic floral lure cup and place it upside down in the cut-out space between the vanes of the trap. (If you are using Ellisco's metal trap with perforated bait tube, simply push the opened floral lure cup down into the tube, and replace the top cap.)

Remove the sex lure button from the foil pouch and push the small end of the button firmly into the hole provided in the lower portion of one of the vanes.

Kill the trapped beetles by immersing the perforated green can (cage) in hot water. Dump the dead beetles into the garbage or bury them in the garden.

PRECAUTIONARY STATEMENT

CAUTION: Avoid contact with skin and eyes. In case of accidental contact, wash with soap and water. If irritation occurs, seek medical attention.
