## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. May be irritating to eyes and skin.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

### PHYSICAL OR CHEMICAL HAZARDS - Flammability

FLASH POINT OF THIS PRODUCT IS 140°F

Do not use or store near heat or open flame.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For most effective results against the active stages of flying, running and crawling insects, use in a good sprayer adjusted to deliver a fine mist.

Treat infested areas thoroughly and whenever possible keep doors and windows closed for 10 minutes after spraying.

Flying insects: For control of flies, mosquitoes, wasps, gnats, and hornets, direct the spray toward the upper portions of the room and saturate the atmosphere with the mist, using 1 to 2 ounces to each 1000 cubic feet of space.

Crawling insects: To control roaches, ants, silverfish, crickets, and spiders, spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinet shelves, sinks, door and window frames, pipes, and toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places.

### STORAGE AND DISPOSAL

Store container away from sources of flame or heat. Store away from fertilizers, food, or feed. Do not reuse empty containers. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
