

SPRA-GON

INDUSTRIAL Fly Spray

Especially formulated for the control of flies, mosquitoes, gnats, flying moths, biting midges, fruit flies, ants and wasps.

SPRA-GON INDUSTRIAL FLY SPRAY is peculiarly well adapted for use in homes, apartment houses, motels, restaurants, for back yard barbecues, for picnics and camping trips. It is also suitable for use in such food establishments as food processing plants, wineries, canneries, fruit packing plants, dairies, meat packing plants and bakeries.

ACTIVE INGREDIENTS	100.00%
Pyrethrins	0.10%
Technical Piperonyl Butoxide*	1.00%
Petroleum Oil	98.90%
*Consists of 0.80% (butylcarbityl) (6-propylpiperonyl) ether and 0.20% other related compounds.	

DIRECTIONS FOR USE

For Inside Use: For flying insects, such as flies, mosquitoes, biting midges, gnats, flying moths, drosophila, fruit flies and wasps: cover exposed food and utensils and close doors and windows. Use a good sprayer and direct the spray upward so that the spray particles will fill the air using 3 or 4 ounces per 1000 cubic feet of space. Allow the room to be closed at least 15 minutes for the very best results.

For crawling insects, such as ants and roaches, apply to point of run-off on baseboards, all cracks and crevices in woodwork, under

neath sinks, dark places behind pipes, and in places where the insects rest and travel. Repeat the operation as often as necessary.

For Outside Use: For flying insects indicated above direct the spray upward to envelop insects while they are in the air, or apply the spray to areas where the insects may be resting.

For crawling insects apply the spray directly to ant hills, nests and trails. Spray door sills and window wells and other areas where ants and roaches enter the building.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. Use in food processing plants only when plant is not in operation. All food processing surfaces should be covered or thoroughly cleaned before using. Food should be removed or protected during treatment. Remove pets, bird cages, and fish bowls from rooms being sprayed. Do not use or store near heat or open flame. Keep container tightly closed.

Do not remain in treated areas. Ventilate the area after treatment is completed.

This product is toxic to fish. This product is toxic to birds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
