

**DIRECTIONS FOR USE**

**Initial Dose:** 1 gallon FORMULA 4032 to 50,000 gallons of water.

**Maintenance Dose:** 1 quart FORMULA 4032 to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of FORMULA 4032 for each 10,000 gallons of fresh make up water added per week.

When swimming season is over, add 1 gallon of FORMULA 4032 to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

**FISH AND/OR WILDLIFE PRECAUTIONS**

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.

# FORMULA 4032

## Concentrate Swimming Pool Algaecide

Keeps Pool Water Clear and Free of Visible Algae

Controls Algae Slimes

**ACTIVE INGREDIENTS:**

n-ALKYL 100 (C<sub>14</sub>, 30%, C<sub>12</sub>, 7%, C<sub>12</sub>, 5%, C<sub>15</sub>)  
dimethylbenzyl ammonium chlorides

n-ALKYL 08 (C<sub>12</sub>, 52%, C<sub>11</sub>)  
dimethyl ethylbenzyl ammonium chlorides

**INERT INGREDIENTS** ..... 90%

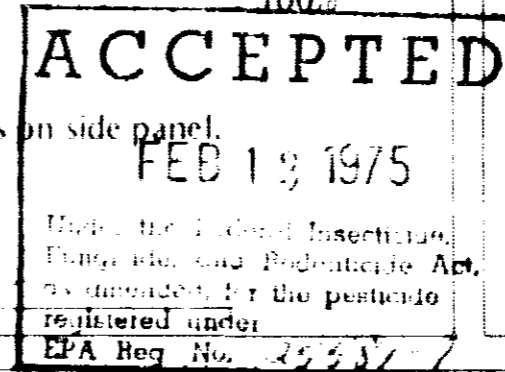

100%

**DANGER:**

Keep Out of Reach of Children. See other precautions on side panel.

EPA REG. NO. 25581-7

**NET CONTENTS:**

When FORMULA 4032 is used as directed, it will kill and development of *Chlorella pyrenoidosa* (green), *Phormidium datum* (black algae), *Phormidium retzii* (Square D algae), *versicolor* (blue green) and other swimming pool algae.

FORMULA 4032 is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap cleaners, or premixed with other water-treating chemicals. ULA 4032 works best when added by itself directly to pool. FORMULA 4032 at use dilution is non-corrosive to most surfaces.

**DANGER**

Keep Out of Reach of Children. Corrosive causes severe skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, and rubber gloves when handling. Hazardous if swallowed. Avoid contamination of food.

**FIRST AID**

In case of contact, immediately flush eyes or skin with water for at least 15 minutes. For eyes, call a physician, and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Do not reuse empty 30 and 55 gallon drums. Return to supplier or destroy by perforating or crushing and burying well away from water supplies.

**NOTE TO PHYSICIAN**

Probable mucosal damage may contraindicate the use of certain drugs. Measures against circulatory shock, respiratory distress and convulsion may be needed.
