

**WHERE AND HOW TO USE
MIL-PRUF**

Mattresses, Box Springs, Cots, Sofa Beds, Pillows, Spreads, Draperies and Bedding - Vacuum and Spray all surfaces with Mil-pruf until moist and repeat as necessary to maintain control.

Upholstery and Carpeting of natural or man-made fabrics, i.e., wool, cotton, nylon, leather, vinyl, fiber - Vacuum or pre-clean surfaces then spray or sponge fabrics with Mil-pruf to moisten all surfaces, let dry naturally. Repeat as necessary to maintain control and especially after dry cleaning, shampooing or steam cleaning.

Closets, Contents of storage bins - Spray Mil-pruf to moisten all finished walls, shelves and floors and the clothes, linens, shoes stored in them. Spray Mil-pruf to mist closets and contents to control mold, mildew and the odors of mildew. Use when necessary to maintain control depending on climate or items stored.

Leather materials either natural or man-made - Clean all interior and exterior surfaces of shoes, belts, boots, bags, luggage, sports equipment and spray with Mil-pruf inside and out and repeat as necessary to maintain control depending on use of item and climate conditions.

PLEASANTLY SCENTED - NON STAINING
MILDEW PROOFER
AMAZING FUNGICIDAL ACTION

MIL-PRUF

Inhibits and Controls Mold, Mildew and Odors of Mildew
on Fabrics, Leather, Hard Surfaces

CAUTION:
KEEP OUT OF REACH OF CHILDREN
AVOID CONTACT WITH SKIN AND EYES

Active Ingredients:
Dodecylamine Lactate .51% - Dodecylamine Salicylate .47%
Inert Ingredients: 99.02 - Total 100%

RIGS V PRO TS CO., Div. of Rigs Chemicals Co., Boca Raton, FL 33432

Wall and Floor should be dust and dirt free then spray, sponge, wipe or mop all surfaces with Mil-pruf until evenly moistened, do not wipe off to dry. Mil-pruf has an invisible residual action. Repeat as necessary to inhibit and control mold, mildew and the odors of mildew.

Kitchen, Bathroom, Laundry and Utility Room - first wash all surfaces as usual then spray with Mil-pruf. Mil-pruf will control mold, mildew and the odors of mildew and remove soap scum from tubs, sinks, showers, shower doors and curtains, tile fixtures, painted or formica cabinets, hampers, waste diaper-garbage pails, stoves, interior and exterior of refrigerators and freezers, bread boxes, counters and finished cabinets. These areas usually are more humid than other areas of the house so it is recommended that to maintain control in this type of environment the areas should be sprayed every week. All surfaces coming in direct contact with food must be rinsed with potable water.

Contents of attics, basements, garages, storage rooms - Surfaces of brick, tile, plastic, metal, painted wood are all effectively protected from mold, mildew and the odors of mildew when sprayed on the cleaned surfaces and repeated when necessary to maintain control depending on the various surfaces protected.

DO NOT REUSE CONTAINER FOR OTHER CHEMICALS AND DISPOSE OF PROPERLY. REG. EPA No. 25882-1
