## NET CONTENTS: 1 GALLON

**STORAGE AND DISPOSAL**

- 1. **PROHIBITIONS.**  
Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.
- 2. **PESTICIDE DISPOSAL.**  
Pesticide, mixture or rinsate that cannot be used should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.
- 3. **CONTAINER DISPOSAL.**  
Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill or bury in safe place.
- 4. **GENERAL.**  
Consult Federal, State or local disposal authorities for approved alternative procedures.

**ACCEPTED**  
**MAY 30 1978**  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under  
EPA Reg. No. 26693-2

# APPLICATION DIRECTIONS

**FOOD HANDLING ESTABLISHMENTS** (Places other than private residences in which exposed food is held, processed, prepared or served) including, but not limited to, restaurants, grocery stores, bakeries, bottling plants, and canneries.

**NON-FOOD AREAS** Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling.) To control **COCKROACHES** (including strains resistant to certain other insecticides), **ANTS, CRICKETS, FIREBRATS, SILVERFISH** and **SPIDERS** in non-food areas, apply undiluted **KILLMASTER** with a 2 to 4 inch paintbrush to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed.

**RESIDENTIAL BUILDINGS** including Homes and Apartment Buildings and within Nonfood Areas of Industrial, Institutional, and Commercial Buildings including Hospitals, Stores, Manufacturing Plants and Warehouses. Apply undiluted **KILLMASTER** as a continuous barrier with a 2 to 4 inch paintbrush to localized areas where **COCKROACHES** (including strains resistant to certain other insecticides), **ANTS, CRICKETS, FIREBRATS, SILVERFISH** and **SPIDERS** normally occur including dark corners of rooms and closets; cracks and crevices in walls; along and behind baseboards, beneath and behind sinks, stoves, refrigerators, cabinets, and shelving; around plumbing and other utility installations; around windows and doors; and along exterior thresholds and porch borders. Spot treatment may encompass crack and crevice treatment by applying small amounts of **KILLMASTER** directly into openings leading to voids and hollow spaces in walls, equipment legs and bases, or which occur at points between elements of construction or between equipment and floors. Equipment capable of delivering a pin stream of insecticide should be used. Prior to application de-energize electrical equipment. After application, allow time for solvent to evaporate before starting motors or placing switches in the "ON" position. Care should be taken to avoid introducing the material into the air. Avoid contamination of food or food processing surfaces.

**CAUTION:** Do not apply to exposed glass or to aluminum surfaces. **KILLMASTER** may cause blistering of areas freshly painted with lacquers, enamels, or oil base paints unless these finishes are completely cured. If in doubt, treat a small obscure area and wait fifteen minutes. If surface has not blistered or raised then proceed with treatment.

**NOTICE:** Seller warrants that the product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of **MERCHANTABILITY** or **FITNESS FOR A PARTICULAR PURPOSE**, express or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
(& DOMESTIC ANIMALS)**

**WARNING**

**May Be Fatal If Swallowed  
May Be Absorbed Through Skin  
May Be Injurious To Eyes and Skin  
Combustible**

Do not take internally. Do not get in eyes or on skin. Do not apply where children are likely to come in contact with the treated surface. Wear rubberized gloves during application. Wash thoroughly after handling. Wash contaminated clothing before reuse. Flush contaminated eyes with plenty of water and get prompt medical attention. Avoid breathing vapors. Keep away from food, feedstuffs, and domestic water supplies. Keep container closed. Avoid contact with treated surfaces until dry.

**NOTE TO PHYSICIAN**

Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, wildlife and birds. Keep out of any body of water. Do not contaminate water by cleaning equipment or disposal of waste.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use, pour, spill, or store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
