DIRECTIONS:

INDOORS: For roaches, waterbugs, ants, crickets, spiders, ticks, silverfish. Apply as a coarse, wet spray to baseboards, window and door frames, underside of shelves and drawers, under sinks, stoves, refrigerators and all cracks and crevices where insects hide and on baseboard surfaces. For ants, spray trails and places where they enter. For brown dog ticks, also treat sleeping quarters of animals and replace with fresh bedding after the spraying. Repeat as necessary.

PRECAUTION:

Avoid excessive wetting of plants, rubber and plastic materials, curtains, tiles and floor coverings. Do not treat wall materials without testing them first as anionspirans are a fumigant. Do not spray bedding, draperies, wallpaper or similar materials that may be stained.

OUTDOORS:

Apply as a coarse, wet spray to the surfaces of the exterior of buildings, window frames, patios and sidewalks. Do not spray on plants. For ants, spray with the product around the perimeter of the building as necessary.
