

WEED BLAST-4G

WEED KILLER

Active Ingredients	
Bromacil (5-bromo-3-sec-butyl-6-methyluracil) 2%
Diuron [3-(3,4-dichlorophenyl)-1,1-dimethylurea] 2%
Inert Ingredients 96%
Total 100%

ACCEPTED

NOV 15 1982

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 26932-1

Keep Out of Reach of Childre
CAUTION
Avoid Breathing Dust

In case of contact, wash skin with soap and water;
for eyes, flush with water for 15 minutes and get medical attention.
See below for Additional Precautionary Statements

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS (& DOMESTIC ANIMALS)

CAUTION

May cause irritation of eyes, nose, throat and skin. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.

ENVIRONMENTAL HAZARD

Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

NON-CROP WEED CONTROL
INDUSTRIAL USE ONLY

WEED BLAST-4G is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-cropland areas such as railroad rights-of-way and industrial areas. 200 to 400 pound applications of WEED BLAST-4G per acre usually result in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil type and other conditions.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

WEED-BLAST-4G should be applied as furnished with a seed spreader, a fertilizer spreader a shaker type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated. Application equipment is available from Mobley Chemicals, Inc. For the control of annual and most perennial weeds and grasses, apply WEED BLAST-4G at the rate of 200 to 400 pounds per acre; on smaller plots, 0.5 to 1.0 pounds per 100 square feet. Repeat spot treatment may be required when deep rooted perennial weeds are present. To obtain the best results, WEED BLAST-4G should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later date. WEED BLAST-4G may, however, be applied at any time of the year except when the ground is frozen. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experimental stations or extension service weed specialists for recommendations as to use in their particular area or write to Mobley Chemicals.

STORAGE AND DISPOSAL

- PROHIBITIONS**
Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited. Avoid contamination of food or food-stuff.
- PESTICIDE DISPOSAL**
Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to applicable federal, state, or
- CONTAINER DISPOSAL**
Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Then dispose of bags in a sanitary landfill or by incineration if allowed by state and local authorities.

IMPORTANT: Do not apply on woody or herbaceous plants or on areas where roots may extend because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Dispose of rinsate according to "Pesticide Disposal" instructions found under "Storage and Disposal" heading. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas.
