

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals.

DANGER

Corrosive. Causes eye damage and skin burns. May be harmful or fatal if swallowed. May be harmful if absorbed in large amounts through skin.

Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing vapor. Avoid contamination of food. Do not take internally. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the EPA.

STORAGE AND DISPOSAL

1. PROHIBITIONS

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

2. PESTICIDE DISPOSAL

Pesticide, spray mixture, or residue that can not be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

3. CONTAINER DISPOSAL

- Reseal container and offer for reconditioning, or
- Triple rinse (or equivalent) and offer for recycling, reconditioning, disposal in approved landfill, or bury in a safe place.

4. GENERAL

Consult federal, state or local disposal authorities for approved alternate procedures.

MIDLAND 660

ACTIVE INGREDIENT:

n-Alkyl (50% C₁₄-40% C₁₂-10% C₁₀)
dimethyl benzyl ammonium chloride . . . 10%

INERT INGREDIENTS 90%

TOTAL 100%

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF

PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**INDUSTRIAL RECIRCULATING WATER
COOLING TOWERS AND
EVAPORATIVE CONDENSERS**

1. Initial Dose. To a clean system with no visible algae or microbial slime, add 3 gallons of MIDLAND 660 per 10,000 gallons of cooling water. If algae or microbial slime are visible, add 6 gallons of MIDLAND 660 per 10,000 gallons of water. Repeat until control is achieved. Badly fouled systems must be cleaned before beginning treatment.

2. Maintenance Doses in Towers with Continuous Feed Equipment. After adding the first dose and achieving control, maintain a level of 10 ppm of active ingredient by adding MIDLAND 660 continuously at a rate of 1 gallon per 10,000 gallons of "bleed-off". If algae or slime begin to grow, add a "slug dose" of 3 gallons of MIDLAND 660 per 10,000 gallons of cooling water. Follow the "slug dose" by maintaining a level of 10 ppm active ingredient.

3. Maintenance Dose in Towers Without Continuous Feed Equipment. After adding the initial dose and achieving control, add 1 to 3 gallons of MIDLAND 660 per 10,000 gallons of cooling water once weekly, or more often to prevent the growth of algae or slime. If growth occurs, add a "slug dose" of 3 to 6 gallons of MIDLAND 660 per 10,000 gallons of cooling water and then maintain a level of 10 ppm of active ingredient.

NOTE: MIDLAND 660 must be added at a point in the cooling system where it can mix uniformly into the circulating water.

For more information, contact your local Midland distributor or write to Midland Research Laboratories, Inc., 10850 Mid America Avenue, Lenexa, Kansas 66219. Telephone: 913-888-0560.
