MANUFACTURED BY:

ARIES ALPHA, INC. P. O. Box 1463 Tifton, Georgia

EPA. Reg. No. 27997-3 EPA. Est. No. 27997-GA. 01

> NET CONTENTS 5 GALLONS NET WEIGHT 52 LBS.

CAUTION: Some fruits and other plants are susceptible to injury from sulfur under certain climatic conditions. The user is advised not to use sulfur on any crop unless local use has proven that sultur is safe in that locality.

During periods of high temperatures sultur may burn foliage and fruit. Do not make sulfur applications at excessively high temperatures. Do not use FLOWABLE SULFUR with oil or within 4 weeks or an oil application.

## DIRECTIONS FOR MIXING BEFORE USING, STIR, UNTIL SMOOTH

Pour the recommended amount of FLOWABLE SULFUR into partially filled spray tank. KEEP AGITATOR RUNNING during filling and spraying operation. DO NOT ALLOW MIXTURE TO STAND. Failure to maintain agitation will cause FLOWABLE SULFUR to settle and may necessitate manual stirring to redisperse.

FLOWABLE SULFUR displays strong adhesive properties and acts as a sticker on the plant, and the sticking characteristics necessitates the tlushing of equipment with water after each day's use. Sulfur in any form is corrosive and to reduce this effect, EQUIPMENT SHOULD BE THOROUGHLY WASHED OUT AFTER EACH USE.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use; but neither this warranty or any other warranty of merchantability of fitness for a part-icular purpose expressed or implied extends to the use of this product contrary to label instructions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

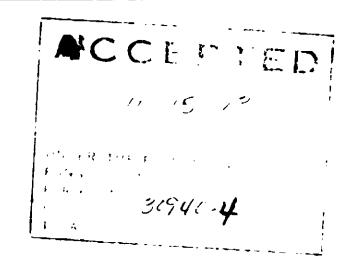

# OUANGIDE-1

OTHER WOOD PRODUCTS

CONTROLS SAPSTAIN AND MOLD

FUNGICIDE CONCENTRATE

QUANCIDE-1 must be diluted with water for use. Mixed as directed, the ready-to-use solution controls stain and mold fungi that infect lumber and other wood products.

## **DIRECTIONS**

See BULLETIN #1 for general directions for use including proper dilution with water, application methods and factors that influence the amount of fungicide needed for stain and mold control.

For best results at least cost, specific recommendations should be obtained from QUANTEX based on analysis of the on-site facilities and operating conditions.

REFER TO BULLETIN #1 BEFORE HANDLING OR USE.

FOR INDUSTRIAL USE ONLY

## INGREDIENTS

## **WARNING**

KEEP OUT OF REACH OF CHILDREN
