

22 lbs. Net Weight
GREEN UP
WEED AND FEED
10-6-4

Contains 2,4-D and Silvex

Chemical 28003-2

DIRECTIONS:

This product will control common and mouse-eared chickweed, dandelions, plantain, buckhorn, mustard and many other weeds in lawns. It will help provide healthy grass while controlling weeds. It will also help control clover.

The contents of this bag should be applied evenly with a mechanical spreader on 5,000 square feet (50 feet by 100 feet). For best results use the following suggested spreader settings.

SPREADER MAKE	SETTING
Scott's	6
Modern	5
Vaughan	6
Lawn Beauty	5
Sears	5
Jackson	6
Lawn Master	6
Cyclone Broadcaster	6

Do not reseed for at least two weeks after application. Do not apply to a newly seeded lawn until the seedling grasses have formed crowns (usually after 3 mowings).

Bentgrass and clovers may be injured by this treatment. Do not use on susceptible Southern Grasses such as St. Augustine.

Do not water for at least 24 hours after application. If rain occurs during 24 hours after application a second spreading may be necessary.

CAUTION:

Avoid inhaling dust and contact with skin, eyes or clothing.

Use on lawns only. Do not use for gardens or on ground covers such as pachysandra or blue myrtle. Do not apply directly to or allow dust or vapors to contact flowers, vegetables, fruits, shrubs, or trees. Do not store near seeds, fertilizers, insecticides or fungicides.

Destroy empty container in a safe place. Do not burn.

WARRANTY

The manufacturer warrants that the composition of this product conforms to the chemical description given in the ingredient statements and that the product is suitable for the use described when used according to directions. The buyer assumes any risk to persons or property arising out of the use or handling and accepts the product under these conditions.
