PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or inhaled. Avoid contact with eyes. In case of contact immediately flush eyes with plenty of water. Get medical attention if irritation persists. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using. Avoid treatment of nursing kittens and puppies. If treatment is necessary spray on tips of fingers and rub into coat. Remove birds and cover fish aquariums before treatment.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE! Keep away from heat and open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CATS AND DOGS: Remove cap and insert trigger sprayer. Cover animals eyes with hand and with a firm fast stroke, to get a proper spray mist, spray head, ears, and chest until damp. With finger tips rub into face around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs rub you hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

PUPPIES AND KITTENS: Treat same as cats and dogs except nursing puppies and kittens, spray only along back or on your finger tips and rub in with your finger tips.

EAR MITES: While holding pet firmly, fill each ear canal half full of spray and massage base of ear to insure that insecticidal action penetrates ear wax. Repeat treatment every other day until condition is relieved. Improvement is usually noted after two applications.

PET SLEEPING QUARTERS: Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats or lice are present, spray lightly into the air. Repeat as needed. The bedding should be sprayed and then replaced with fresh bedding for best results.

HORSES: To control stable flies, horse flies, deer flies and face flies apply to face, legs, flanks, topline and other body areas commonly attached by these flies. Repeat treatment as needed.

DISPOSAL

Do not reuse bottle. Wrap bottle in newspaper and dispose in trash collection.
